ABOUT THIS ISSUE

This issue covers the Olympic Trials in Australia and Canada. Although we were delayed somewhat (mostly due to late arrival of pictures from Australia) we decided to combine both competitions and thus catch up. Sorry for the delay.

The Australians are a major power in the pool. Add to the mix the home-town support, saturation media coverage, and you've got the formula for success. Five world, 16 Commonwealth records, and 100,000 paying spectators are the final payoff.

The Canadian Trials held two weeks later lacked some of these elements. The first blow was the unavailability of the new Speedo Body Suits for all competitors and SNC deciding to delay the use of these suits in Canada until everyone can get one. The same suits were readily available to all in Australia. How these suits contribute to faster swimming is yet to be established. The records in Australia suggest they are a factor, and the rash of more than 10 world record elsewhere during the past four weeks suggest a record revolution is underway.

The pre-selection of the three top Canadians from performances done last year did not contribute to faster swimming. World records were set in former Canadian Trials when everyone had to perform in Canada to earn selection. The eight-day format and the many rounds of swimming surely took their toll.

Three Canadian records fell—Rick Say bettered the 20-year-old 400 freestyle time and Morgan Knabe erased Victor Davis' 100 breaststroke time. Shamek Pietucha lowered the 200 fly record. Only one of these record swims came in the final.

Not all individual spots were filled and a second opportunity to qualify has been made possible at Summer Nationals in August.

Media coverage during the Trials was very good but whatever effect that had was all erased subsequently with the controversial appointment of a woman coach to the Olympic Team.

You'll also find in this issue a historical review of Canadian Trials since 1972. A two-stage selection was first held in 1988, similar to this year—a separate trials in late May-June and a Summer Nationals in August to fill any remaining spots.

Not all countries duplicate the Olympic format at their Trials. Germany held a four-day meet, and Great Britain plans a six-day meet in late July.

TOP entries were over 700, and we list all that submitted their performances on page 6-7-8. There is final opportunity to take part. Results will be published in late July.

TAG Times include all competitions we've received—either e-mailed or by more traditional methods.

**AMATEUR SWIMMING FEDERATION OF GREAT BRITAIN
GREAT BRITAIN SENIOR COACH
Salary : Package negotiable**

The Amateur Swimming Federation of Great Britain is the National Governing Body for Swimming and its associated disciplines in Great Britain with its headquarters currently situated in the centre of Loughborough.

Applications are invited for the post of Great Britain Head Coach to work with the National Performance Director to provide leadership and co-ordination for the planning and implementation of the Great Britain elite swimming programme.

The successful applicant must have experience of coaching elite swimmers to Olympic/World medals and must have extensive experience of planning and implementing training programmes for World Class Athletes.

Comprehensive sports science experience and knowledge is essential.

The position is a full time appointment on a fixed term contract to 31st December 2004. The ASFGB is an equal opportunity employer and has a non smoking policy. The closing date for this application is 31st July 2000

To obtain an application pack please contact the ASFGB Employment Line on +44 (0)1509 618 703 (24 hours), e-mail Cathy@asagb.org.uk or write to the Head of Administration, ASFGB, Harold Fern House, Derby Square, Loughborough, LE11 5AL

**AMATEUR
SWIMMING
ASSOCIATION**

**WORLD CLASS POTENTIAL / WORLD CLASS START
PROGRAMME DIRECTOR**

Salary : Package negotiable

The Amateur Swimming Association is the National Governing Body for Swimming and its associated disciplines in England with its headquarters currently situated in the centre of Loughborough.

Applications are invited for the exciting new lottery funded post of World Class Potential and World Class Start Programme Director reporting to the National Performance Director.

The Role

The Programme Director will be responsible for the strategy, direction and management of the World Class Potential and World Class Start programme.

The Person

The successful applicant must have experience of coaching elite junior or senior swimmers to major event medals and must have extensive experience of planning and implementing strategies for the development of swimmers from junior to senior elite level.

Excellent leadership and administrative skills are essential.

The position is a full time appointment on a fixed term contract to 31st December 2004. The ASA is an equal opportunity employer and has a non smoking policy. The closing date for this application is 31st July 2000

To obtain an application pack please contact the ASA Employment Line on +44 (0)1509 618 703 (24 hours), e-mail Cathy@asagb.org.uk or write to the Head of Administration, ASA, Harold Fern House, Derby Square, Loughborough, LE11 5AL

AUSSIES HAVE STRONGEST OLYMPIC TEAM IN 40 YEARS

Nick Thierry and Paul Quinlan

SYDNEY—By all measures it was a huge success. Five world records, 16 Commonwealth records, and over 100,000 paying spectators made for a week of unforgettable swimming.

Two swimmers dominated with their world records. Ian Thorpe broke his own world record in the 400 freestyle on the first day with 3:43.33. It was an easy swim as the usual stroke-for-stroke battle with Grant Hackett never challenged. Hackett was well back in 3:51.05. Thorpe said: "I was surprised about the result tonight. The crowd was amazing and they brought me home."

On the second day, Thorpe swam the 200 freestyle semi-final in his second world record with a 1:45.69. The next day he improved it to a 1:45.51 in the final. It was a very fast final, with the top six finishers under 1:49. The depth of the Australians in this event is best expressed by Daniel Kowalski. "I was fifth tonight with a faster time than I did in Atlanta for the silver."

Michael Klim won the 1998 World Champion-

ships in Perth with 1:47.41. He improved here to 1:46.89 for second. He realized the chances of catching Thorpe areslight. He subsequently decided to give up his spot to Grant Hackett, third in 1:47.81, and concentrate on the 100 freestyle and 100 butterfly and the three relays. Klim, winner of seven medals in Perth, has opted to lower his expectations. Later in the meet he

Close 1/100th margin for Huegill in winning the 100 fly over Klim

SPORT The Library

Backstroke sweep for Dyana Calub

SPORT The Library

met his match again in the 100 butterfly where he holds the world record of 51.81.

Geoff Huegill had served notice earlier in the meet that he was ready. In the non-selection event of the 50 butterfly he established a new world record of 23.60.

In the final of the 100 butterfly, the men had an epic race with the lead changing several times throughout the race. Huegill surged to win in 52.19 with Klim second in 52.20.

Klim won the 100 freestyle in 48.56, a Commonwealth and personal best, moving to number four on the all-time performers list.

Grant Hackett was off his usual form in the 400 free, where he normally goes stroke-for-stroke with Thorpe, and there was great anticipation for the final of the 1500 freestyle. Seating capacity had been increased by 2,000 seats for the final two days to 12,000. It was the battle with Kieren Perkins that everyone came to see.

The race was exciting as Perkins trailed Hackett by a few strokes and made a great effort towards the finish to close the gap. Hackett won with a slow-for-him 14:56.30, and Perkins, winner of two Olympic

Justin Norris wins 400 IM with Grant McGregor and Matt Dunn

SPORT The Library

golds, was second with 15:01.10, earning a spot for his third Olympics. Hackett was more than 10 seconds off his Pan Pac winning time of 14:45.60 and Perkins' world record from 1994 is 14:41.66.

A weakness for many years had been men's backstroke, but Matt Welsh closed the gap. He made a clean sweep of all three backstrokes. His 25.68 in the 50 back was a Commonwealth record. In the 100 backstroke, his 54.14 was a second faster than his time from Pan Pacs. In the 200, his 1:59.22 was a two-second improvement from his previous best.

Phil Rogers will be going to his third Olympics. He won the 100 breaststroke in 1:02.59, slower than expected. He won bronze in Barcelona and Atlanta. He missed a spot in the 200 breast, finishing fifth as Ryan Mitchell won in 2:14.42 over Regan Harrison with 2:14.80.

Two newcomers made the team in the 200 fly. Heath Ramsay won with 1:57.49, never having been under 2 minutes before, and Justin Norris was second with 1:57.50. Seven of the eight finalists bettered two minutes.

Norris won the 400 IM in 4:16.23 over Matt Dunn with 4:26.50. Dunn won the 200 IM in 2:01.28.

Susan O'Neill was the star of the women's events. During the eight days, she bettered the oldest world record in the 200 fly and four Commonwealth records.

After chasing the 200 fly record for the past decade, it finally fell on May 17th. In a great race with Petria Thomas and the roar of 10,000 hometown fans, the crowd went wild and clapped the accomplishment to Shania Twain's "Feel Like a Woman." Mary T. Meagher, the holder of the record from 1981, was not present but her husband (TV executive Mike Plant) was at the pool and congratulated O'Neill.

Betters old record of 1:46.00 Ian Thorpe, AUS, Aug 1999.
- **Men's 400 freestyle:** 3:41.33 Ian Thorpe, AUS, Sydney, May 13
Betters old record of 3:41.83 by Ian Thorpe, Aug, 1999
- **Men's 50 butterfly:** 23.60 Geoff Huegill, AUS, Sydney, May 14.
Betters world best of 23.68 Denis Pankratov, RUS, 1996
- **Women's 200 butterfly:** 2:05.81 Susan O'Neill, AUS, Sydney, May 17, final. Betters old record of 2:05.96 Mary T. Meagher, USA, 1981

COMMONWEALTH

- **Men's 100 freestyle:** 48.56 Michael Klim, AUS, Sydney, May 16, final. Betters own record of 48.72 from March 2000

Men's 200 freestyle:

- 1:45.69 Ian Thorpe, AUS, Sydney, May 14, semis
- 1:45.51 Ian Thorpe, AUS, Sydney, May 15, final
Betters old record of 1:46.00 Ian Thorpe, AUS, Aug 1999.
- **Men's 400 freestyle:** 3:41.33 Ian Thorpe, AUS, Sydney, May 13
Betters old record of 3:41.83 by Ian Thorpe, Aug, 1999
- **Men's 50 backstroke:** 25.68 Matt Welsh, AUS, Sydney, May 20, final. Betters old record 25.81 Chris Renaud, CAN, 1998

Men's 50 butterfly:

- 23.77 Geoff Huegill, AUS, Sydney, May 13, semis
- 23.60 Geoff Huegill, AUS, Sydney, May 14, final
Betters old record of 23.90 Michael Klim, AUS, June 1999.
- **Women's 100 freestyle:** 54.86 Susan O'Neill, AUS, Sydney, May 13, relay lead-off. Betters old record of 55.03 Sue Rolph, ENG, 1999.
- **Women's 200 freestyle:** 1:57.47 Susan O'Neill, AUS, Sydney, May 14, semis. Betters old record of 1:58.17 Susan O'Neill, AUS, 1999

Women's 50 backstroke:

- 29.19 Dyana Calub, AUS, May 13, prelims
- 28.89 Dyana Calub, AUS, May 13, semis
- 28.86 Dyana Calub, AUS, May 14, final
Betters old record of 29.47 Dyana Calub, March 1999
- **Women's 50 butterfly:** 26.78 Petria Thomas, AUS, May 18, semis
- **Women's 100 butterfly:** 58.05 Petria Thomas, AUS, May 13, semis. Betters old record of 58.54 Petria Thomas, Mar 2000

Women's 200 butterfly:

- 2:05.81 Susan O'Neill, AUS, Sydney, May 17, final
- 2:06.51 Susan O'Neill, AUS, Sydney, May 16, semis
Betters old record of 2:06.53 Susan O'Neill, AUS, 1999

A comparison of the splits:

Meagher	29.53	1:01.41	1:33.69	2:05.96	old world record
O'Neill	28.51	1:00.24	1:32.71	2:05.81	new world record
Thomas	28.53	1:00.69	1:33.62	2:07.21	4th fastest all time

ances, O'Neill has six. Meagher has three.

O'Neill won the 200 freestyle in 1:57.70 and set a Commonwealth record in the semis with 1:57.47. She added another Commonwealth record in the 100 freestyle, leading off her club team in the 4x100 free

Perkins going to third Olympics

SPORT The Library

relay in 54.86. She had the fastest time in the 50 free after the semis, but scratched the final to attend a friend's wedding.

She battled Petria Thomas in the 100 fly and finished second with a personal best of 58.71. Thomas won with 58.43 after her Commonwealth record of 58.05 in the semis.

It was a successful comeback for Hayley Lewis, who won the 800 freestyle in 8:35.56, well back of her personal best of 8:26.86 in 1993. She had earlier missed a spot in the 400 free and 400 IM.

Dyana Calub completed a sweep of the three backstrokes. She won the 50 in 28.86, the 100 in 1:01.71, and the 200 in 2:13.35. There was a tie for second in the 100 between Clementine Stoney and Giaan Rooney, which required an even rarer swim-off to decide who would swim the event in the Olym-

Leisel Jones, 14-year-old prodigy

SPORT The Library

pics. Rooney won that one. Both had earned Olympic spots in other events.

There was a changing of the guard in the 100 breaststroke as Leisel Jones, 14, won with 1:08.71, with Tarnee White second in 1:09.05. Both are coached by Ken Wood, who said: "I really set out originally to get Tarnee on the Olympic Team. Then along came young Leisel Jones. When you have two in your program you mix joy with sorrow. I am a lucky man tonight."

The men are strong and will challenge the Americans for supremacy, but only O'Neill looks like a winner in the women's events. The Australian program has been dramatically turned around. In 1976 they bottomed with a single bronze medal. They will have a record haul in 2000.

KNOWS NO FEAR IN THE POOL, KNOWS NO BARRIERS OR LIMITS

Ian Hanson

Ian Thorpe lumbers around the pool deck with the same supreme confidence as Muhammad Ali prancing around the ring, the same air of supremacy as Michael Jordan on the court, the same look of invincibility as Michael Johnson on the track.

But the 17-year-old Sydneysider, who would be King of the Olympic Pool come September, is still very much a kid at heart. He still plays games and says unusual things to take his mind off what he does best, which is swim faster than any human being has ever swum over 200 and 400 metres freestyle.

On the eve of his most recent world record-breaking spree at the Telstra 2000 Selection Trials in Sydney, Thorpe said he was not feeling 100 percent, a little off colour, even contemplating retirement!

What! The new King of Swimming, washed up at 17!

"I just don't feel like swimming," he quipped, "I'll tell the media tomorrow, I'm going to retire."

"And what might you be retiring to do Ian?" a friend promptly asked him.

"To play soccer in Italy; my dad was a good soccer player, you know, and I could change my name to Iano Thorpeaci." Ian Thorpe, his mother admits, can be clumsy at the best of times, except when he's immersed in water, so remembering he broke a bone in his ankle running late last year, a soccer career is probably out of the question. (Running is also off the Thorpe cross-training program.)

The whole story was a charade, just a kid playing a game with his close associates, 24 hours before he set about destroying his own 200 and 400 metre freestyle world marks with what appears to be the flick of the switch that powers the Thorpedo.

But Thorpe has this incredible capacity to handle hard work. His discipline is second-to-none and he has already reaped the rewards with six world records from six swims at last year's Qantas Pan Pacs and this year's Australian Trials.

This slip of a kid (who has his own robe with

"Thorpedo" embroidered across the shoulders, with a small 2 positioned so it also reads H₂O) destroyed not only his own world records in the 200 metres freestyle (twice) and the 400 metres freestyle but some of the best swimmers in the world. He left the current world champion, Michael Klim, in his wake and previous world record holder Grant Hackett in third place.

With all due respect to Klim and Hackett, they were left to wonder: "How in the heck are we going to get anywhere near this kid in September?" So much so that Klim has opted out of the 200 free at the Olympics, preferring to save his talents for a tilt at the 100 freestyle-butterfly double, allowing Hackett to come in and take his place.

Thorpe started proceedings in Sydney with the 400 metres freestyle, when he carved half-a-second off his own world record on Night One of the trials. The 10,000 people who packed the grandstand were there in anticipation of another personal best time. To the Thorpedo, of course, a personal best to him is a world record.

From the outset, Thorpe was well and truly under his own world record pace. A split at the 100 metres of 53.15 and then at the 200 metres of 1:49.14, it was a remarkable time that would have qualified him for a place in the 1996 Atlanta Olympic 200 m final. He came home in 1:52.19, in the end 0.50 under his old world record with a time of 3:41.33. For the last 100 metres, the entire crowd rose as one to bring their hero home.

They were back again the next night in antici-

OLDEST RECORD FALLS

Ian Hanson

It was a day in time that most Australians hoped would come, like waiting for your team to finally win that elusive footy premiership.

After trying for so long and being so close so often, it was time for the sun to shine on lane four in the final of the women's 200 metres butterfly at the Telstra 2000 Selection Trials.

It was a day in time that both swimmer Susie O'Neill and her coach of six years, Scott Volkens, knew would definitely come. They had plotted and planned; swum and schemed; dissected stroke counts and split times; made sacrifices and trained harder than they've ever trained. Would May 17, 2000, see Australia's first lady of swimming achieve the one thing she had dreamt about and worked for so hard for so long—her first long-course world record and the world mark set in Brown Deer, USA, by a 15-year-old from Louisville, Kentucky, the original "Madam Butterfly," Mary T. Meagher?

It was a record that had been on O'Neill's mind for a long, long time. Swimming's Holy Grail was in sight. The world waited in anticipation for the crowning of a new butterfly queen.

Mary T. waited by the phone, and husband Mike Plant had actually been poolside in Sydney on Goodwill Games duties the day before. He would fly home to Atlanta to the news that wife Mary T. had lost her last remaining world record.

The end of one amazing era in world swimming and the beginning of another.

The world's media again primed themselves with their stat sheets and split times, also in anticipation of another world record story. Tonight would be the night they would finally report the one thing Susie O'Neill has waited for.

The crowd of 11,000 people who crammed into the Sydney International Aquatic Centre gave O'Neill a roaring ovation when she was introduced by poolside commentator Peter Graham. Many of them had followed O'Neill's career for the past decade, through three Commonwealth Games, two Olympics, 12 Australian Championship campaigns, and a record 34 National titles. Her mum Trish, father John, and husband Dr. Cliff Fairley were just three of the faces in the crowd. (Cliff was lucky to be there after Susie had left his tickets at their Brisbane home. She had scrounged around to get him a last-minute ticket, ensuring her husband of two years would be there for her crowning glory.)

The 26-year-old Olympic champion was pumped. She knew she had to go out after it, but even coach

Klim congratulates Thorpe

SPORT The Library

tion of World Record Number Two and they were not disappointed, with Thorpe clocking a time of 1:45.69 in his semi-final, 0.31 seconds under his 1999 world mark of 1:46.00 and his third world record in that event.

Could he make it three-in-a-row on Night Three in the final?

Thorpe lined up in one of the most anticipated events of the Trials, a who's who of Australian Swimming vying for the two individual spots and six available spots on the relay squad. What unfolded was the fastest Australian Championship in history and one of the fastest finals in history.

Thorpe unleashed his awesome power to smash the world record of the previous night with a time of 1:45.51, followed by world champion Michael Klim (1:46.89), former world record holder Grant Hackett (1:47.81), world 4x200 freestyle relay swimmer

William Kirby (1:48.05), Atlanta Olympic bronze medallist Daniel Kowalski (1:48.15), Kirby's Western Australia and Australian Institute of Sport teammate Todd Pearson (1:48.15), 1994 Commonwealth Games champion and 1500 m world record holder Kieren Perkins (1:50.02), and a third Western Australian, Antony Matkovich (1:50.10).

Thorpe, Kirby, Kowalski, Pearson, and Matkovich all clocked personal best times. Only Matkovich missed Olympic selection.

Thorpe now has the chance to become Sydney's answer to Michael Johnson in Atlanta in 1996. Winning the 200-400 double in the pool will not be a first but the way he'll go about it and the attention on Thorpe in the lead-up to, during, and after the Olympics will rival Johnson's notoriety in 1996.

There is every chance that the Thorpe phenomenon will once again shatter his own world records, all before his 18th birthday.

"There are no limits," says his coach Doug Frost. "He never ceases to amaze me, in training, in races, in life. Ian is a remarkable kid, who knows no fear in the pool, who knows no barriers or limits.

"Someone will have to break the world records to beat him at the Olympics and with all due respect to the other competitors, I have not seen anyone yet who has shown they can do that.

"This kid is a super talent, who is rewriting history every time he dives in the pool. He's a pleasure to coach and a pleasure to watch swim.

"I think everyone who has had the opportunity to see him live and on the television is witnessing the greatest swimmer in history."

Few could disagree.

First world record for Susan O'Neill

SPORT The Library

Volkers thought she had actually gone out too hard. She split 28.51 and 1:00.24 after the 50 and 100 metre marks, with her “partner in flying,” co-pilot Petria Thomas, the Olympic silver medallist, right on her shoulder. The world record was in her sights.

“I knew Petria would be right there with me,” said O'Neill later. “Scott had warned me that Petria was in the best form of her life and he was right.”

At the 150 mark, O'Neill was again under world record pace at 1:32.71, compared to Meagher's 1:33.69, but she had been in that territory before. Fifty metres stood between Susie O'Neill and a slice of swimming history. For the 2.3 million viewers who watched on Channel Nine's Wide World of Sports coverage around Australia, there was a stunning addition to the race. With 25 metres to go, a superimposed green line showing the world record emerged on the screen, and Susie chased this line right to the finish, just edging it out on the wall, to finally break the world record in a time of 2:05.81, just 0.15 seconds under Mary T. Meagher's longest-standing world mark of 2:05.96.

Thomas stormed home in second place with a personal best time of 2:07.21, making her the fourth-fastest swimmer in history.

The crowd gave the new world record holder a standing ovation and O'Neill delivered with a world record dance quickly dubbed the “Butterfly Boogie” and the “Susie Shuffle” by the Sydney media.

Susie admitted she could hear the crowd the whole time. “I felt stong in the water, I knew I was going to touch and when I heard the reaction from the crowd I knew I had finally done it.”

She had convinced herself before the race she would not break the world record, so she would not be disappointed. “The other girls shared a few jokes in the change room and they said at least I would still have the world record for the Masters.”

O'Neill said later, “Breaking this world record is something I've wanted for a long time, it will make giving up swimming a lot easier but I've still got a lot to do before the Olympics.”

“Oh What a Gal!” was just one of the front page headlines in Sydney's *Daily Telegraph* as the media concentration turned away from Ian Thorpe and over

to Susie O'Neill. The Australian newspaper had already contacted Mary T., who spent 15 minutes talking to Susie on a mobile phone as journalists told the world of her exploits.

The Channel Nine “A Current Affair” team, led by Mike Munro, had already arranged for Mary T. to be in the CNN Studios in Atlanta for a live cross with Susie the next morning. It was a pleasant surprise and a wonderful tribute to both swimmers to share in such a moment.

But one headline Susie didn't expect was the front-page story and photo in *The New York Times*.

The Australian Ambassador to the US had sent Susie a congratulatory fax and a copy of the story.

Susie O'Neill had certainly made the big time.

The changing of the guard had finally taken place and all that remains now for Susie is to achieve something that no other butterflyer has ever achieved—a successful defence of her Olympic title in Sydney in September.

We can't wait.

RICK SAY BETTERS 20 YEAR OLD 400 FREE RECORD

THREE CANADIAN RECORDS TUMBLE

23 QUALIFY FOR INDIVIDUAL EVENTS AND 13 AS RELAY ALTERNATES

Katherine Dunn

At the 1996 Olympic Trials, *SwimNews* reported there was a malaise at the pool that could not be attributed to mere jitters. Rather, it was the dreaded two-person-per-event selection standards imposed by FINA and a slew of events in which no one qualified that left an uneasy feeling about Canadian swimming. In particular, Canada's men were generally weak; only 8 went to Atlanta compared with 17 women.

The events of four years ago bear repeating for a couple of reasons: This time, there was not only a FINA standard to contend with but also the fatigue of an eight-day marathon meet in which all events shorter than 400 metres were swum three times by the top eight athletes. By the end, the semi-final format was strenuous even to watch. But swimmers, coaches, and fans rose to the occasion, down to the last event, and Canada qualified 17 women and 19 men for the Olympic Games in Sydney this September. Those tallies include the three swimmers who had prequalified for the Olympic team. Joanne Malar, Curtis Myden, and Jessica Deglau swam times last summer that put them in the top four in the world as of September 1998. As such, they were guaranteed a spot in those events, no matter what happened at Trials.

For the first time in several Olympics, the Canadian team is sending swimmers for all three relays on both the men's and women's teams. This is something to celebrate: There has been a drought of male sprint freestylers in Canada for years. Two years ago, Toronto coach Byron MacDonald coined the phrase "200 seconds in 2000," referring to a national goal to have four men swim under 50 seconds in 100 free.

Although this goal wasn't realized at Trials (in fact, no one made the FINA Olympic cut of 50.09), qualifying for both free relays is a positive step in that direction. Yannick Lupien, who placed second in the 100 free final, is the only Canadian to break 50 seconds last year.

One swimmer on his way to the top of the male sprinter heap is Kyle Smerdon, whose sixth-place finish in the 100 free was fast enough to qualify for the 4x100 Olympic relay. Smerdon, 20, had not even made Olympic Trials in the 100 free as of early March. He made the 200 free and swam the 100 as his free event at Spring Nationals.

100 breast winner Rhiannon Leier

Marco Chiesa

It is difficult to deem only one of the week's races "the swim of the meet." Trials had an auspicious start: on the first night, the top three men in the 400 free met the FINA standard, though only two swimmers may go to Sydney. Rick Say, who won gold, also broke Peter Szmidski's 20-year-old Canadian record. Szmidski's record was the oldest one in the book. The

same day, Morgan Knabe of Calgary broke Victor Davis' 16-year-old record in the 100 breaststroke.

For swimmers who have considered leaving the sport because they've hit their 20s and have yet to make a national team, 25-year-old Michelle Lischinsky is an inspiration. On Day Three, Lischinsky placed second in the 100 back, made the FINA Olympic cut, and is now heading to Sydney, her first international meet since she traveled abroad with a youth team more than a decade ago. Last August at Nationals, she said she's continued to swim for almost 20 years because she's still improving. "I don't feel like I've reached my goals," she said. "What are the highlights of my career (so far)? I think my highlights are yet to come." Lischinsky made her first carding time at Spring Nationals, which means she's been training full-time with little financial support from anyone besides part-time jobs and her mom.

Etobicoke's Owen von Richter swam an inspired race on Day Two, winning the 400 IM and making his first Olympic team at 25. Von Richter narrowly missed the last Olympic team and has suffered from bad asthma and other health problems since 1996. After a slow heat swim, he came back to go more than two seconds under the FINA Olympic standard in finals. All he needed was a strategy adjustment. "(In finals) I put it in slow gear and only swam half a race," he said. "I just raced to win at night. I knew I'd be a

Marco Chiesa

Stunning upset win for Dustin Hersee in the 200 backstroke

Marco Chiesa

body-length behind at the 200. I didn't want to die. I tried that in the morning and it just didn't work."

The men's 200 back final was a great race, partially because Dustin Hersee broke through stalwart champions Chris Renaud and Mark Versfeld to win the event and make the Olympic team. Vancouver's Hersee, 24, has been making national finals for years. He won the 200 back at Nationals in 1997. And he has swum internationally for Canada. But, more often than not, he finishes behind teammate Versfeld

Laura Nicholls qualified in the 200 freestyle, won the 50 freestyle

Marco Chiesa

and Calgary's Renaud.

Even Hersee's rival, Renaud, was impressed with Hersee's effort. "To see Dustin get up there and beat us is great. He's been working his buttoff," he said.

Karine Legault's 800 free was one of the most exhilarating of the meet, if not the loudest. The crowd was on its feet for her last 200 metres, as she finished a second under the FINA Olympic standard and 12 seconds faster than her best time. Like Michelle Lischinsky, 21-year-old Legault has little international experience. But her time, 8:39.21, puts her in the top 15 in the world this year.

The biggest surprise was the final race of the 8-

Tara Taylor got into the final due to a scratch, then finished fourth in 56.83 for an Olympic spot.

Marco Chiesa

day Trials as Andrew Hurd, 17, of Mississauga missed the Canadian record in the 1500 freestyle by 7/100ths of a second. His 15:12.70 was well under the FINA standard of 15:26.05. His previous best was 15:30.30 from the 1999 Summer Nationals. It was the fastest ever 1500 winning time at a Canadian Nationals/Trials. Rick Say was second in 15:34.53, edging veterans Tim Peterson, Mike McWha, and Brent Sallee.

The crowd thrived on such fast swimming. Raucous contingents of age-groupers filed into the stands each night to cheer for their senior teammates. Add parents, fans, and an energetic announcer, and finals were more exciting than Canadian swimming has ever been.

In all 22 swimmers qualified for individual spots and 14 relay alternates for a total team of 36. However there are 21 individual spots still available. Summer Nationals (August 3-6) in Winnipeg may be used to fill these available spots.

One swimmer already on the team may also be entered in the open individual events as there is a slower FINA standard for one swimmer per event.

Finals in Montreal were also unique: They included races for swimmers with a disability (SWAD), who were vying for the Paralympic team that will compete in Sydney in October. SWAD races have been integrated with able-bodied meets since the mid-1990s, but this is the first time the Paralympic and Olympic trials

have been run simultaneously. Well, almost. SWAD finals were relegated to the end of the night, after the able-bodied swimmers finished their races.

"This is a huge first step," conceded Herb deBray, who coaches three-time Olympian SWAD Elisabeth Walker. "We should all be grateful for that. But some swimmers say it's a bit demoralizing the way the schedule goes. There is room to integrate SWAD events through finals to accommodate everybody. Maybe start the program an hour earlier."

Walker agreed, saying she hopes to eventually work with national sport organizations to help get other sports integrated with their able-bodied counterparts. "If you're going

to integrate, do it full. It makes it worse when the announcer says 'stay' as people are walking out," she said. "I went to go watch Nationals a couple of years ago and Curtis was going for a Commonwealth record. It was amazing. The Canadian Paralympic team is the best in the world. If they announced that any of us was on pace (for records), I know that the other swimmers would get into it and we'd break records and feel good about ourselves too."

Morgan Knabe broke the 100 breast record

Marco Chiesa

SUCCESS AT AGE 24

Nikki Dryden

In Montreal at the Olympic Trials, Mike Mintenko, PDSA, continued his winning streak in the 100 fly, beating a first-class Canadian field with a 53.45 in the final, after an even faster 53.36 in the semis.

“The Tank,” as he is known affectionately, brings to mind thoughts of He-Man adventures and testosterone-filled moments. But it seems Mike has a softer side that only his teammates see. This 188 cm, 95 kg (6'3" 210 lb.) muscle man has been known to bake cookies and gourmet omelets for his fellow Dolphins, and although he is no “mountain man,” he is taking full advantage of his new surroundings on the West Coast. “Being done school allows me to focus on swimming. I am by no means a 24-hour athlete, but I do get more rest than I did in college.” Mike also enjoys soaking up the sun, playing basketball, listening to music, and hanging out with friends. (Sorry girls—Mike is taken!)

On a more serious note, Mike is one of those “late bloomers” who are finding success as a mature athlete. “My swimming has definitely improved since my move to Vancouver,” says Mike. “The environment here is so much better. At school there was such a wide variety of talent on my team, everyone had specific but different goals.

Here everyone is focusing on the same goal—to make the Olympic Team.”

When Mike was about 18, he decided to hang up his hockey skates after nine years on the ice, put down his high school football, and concentrate on swimming. It was then that Mike moved towards getting a scholarship in the US. He chose University of Nevada-Las Vegas (UNLV) for the sun over offers from bigger schools up North. “There is not a lot of support in Canada for swimmers unless they are on the National team, and I wasn’t at that level yet. I wanted to go somewhere warm. I wanted a change from the snow of Moose Jaw.”

Mike believes it was not until the end of his four

years at UNLV that he learned how he really needed to be training. He had planned to stay in Las Vegas until the Olympic Trials, but after speaking with Steve Price in the summer of 1998, he began to think about coming back to Canada. “Steve told me he was leaving Regina and moving to Vancouver. He really put the bug in my ear and on a whim I packed up my life in my Jeep and drove to Vancouver.”

Mike attributes his improvements to all the elements of his relocation. “My training here is much more consistent. I am more fit from more workouts and Tom (Johnson), Randy (Bennett), and Steve (Price) do a lot of work on technique which I think is very important.” Mike admits his first six months

Mintenko won the 100 fly, also qualified for 4x200 free relay

Marco Chiesa

away from his life, his friends, and his girlfriend in Las Vegas were difficult. “The basic life lessons of moving to a new place have helped me mature as a person and an athlete.”

Mike’s goal for Olympic Trials was to swim to win, rather than swim to make the team. “I have a goal time, and hopefully I will hit it, but the thing about Trials is that you have to do it at the meet. It doesn’t matter what any of us have done all year, all that matters is what I do on June 3rd.” Mike’s humble attitude is refreshing in the world of cocky male sprinters, and he has certainly set himself up for some

great swims this summer. “I am excited about Trials and ready to go. It will be fun and a great experience.”

Seventeen of Mike’s family, friends, and coaches from his days in Moose Jaw were at the Trials cheering him on from the stands. “I get my own fan section, but that doesn’t put any extra pressure on me—it is just great support.”

No matter what happens, Mike understands that this sport is merely an opportunity to have fun, travel, and be with his friends. “The most important thing about this swimming life is the times and experiences I get to have with my friends and teammates. It is so much more important than any Olympic ring around my finger.”

According to his teammate Mark Versfeld, Mike is a fresh addition of ambition to the team. “Mike is someone who has seen the opportunity, taken the risks, and made the sacrifices for what he can and wants to do.” On a lighter side, Mark also jokes about the “old bear.” “It’s great to have Mike on the team.”

If we are ever stuck on a deserted island, we could eat his legs for weeks.” (Speaking of those legs—for those who were wondering, his calves are real, not implants.)

Mike seems to have it all, and the college grad is ready to get back to school in the fall. He hopes to work on his MBA at UBC while still swimming. He also plans to give the 200 fly a shot this summer. “Until now I really haven’t been able to finish a 200 fly, nor was I confident in my fitness. But it’s something Doug (Wake) has been teasing me about for years, so I have decided to give it a shot after Trials.”

OLDER, WISER, AND FASTER

Katharine Dunn

High-level competitive swimming for women is not reserved for elfin teens. This is obvious to today's crop of 20-something swimmers, who dominated most events at Canada's Olympic Trials: 12 of the 17 women who qualified for the team are over 21. Six of them have competed in at least one other Olympics. And a glance at recent world rankings shows that in most events, there is at least one swimmer in the top three who was born in the 1970s.

But national teams have only recently been filled with post-graduate-aged swimmers rather than age-groupers. At the 1976 Olympics, Canada's women's team was more like a girl's team, according to Toronto coach and former Olympian Byron MacDonald, who said the average age was around 16. Even in 1996, the average age of the women's team was 19; this year, it's 21.

What has changed? It has been nearly 30 years since Title IX was passed in the US, giving women access to varsity teams and sports scholarships that before then were for men only. This US law had an effect on women's sports worldwide. Much more recently, women have become professional athletes; instead of retiring after university, finding a job, and maybe occasionally competing for a master's team, women can make a living in basketball, soccer, tennis, and golf, among other sports. "In the '60s, we won the battle for women just to be athletes," said MacDonald.

"Nowadays, it's accepted in the lore. Women are athletes just like men are athletes. The majority of people don't see a difference."

Swimmers like Marianne Limpert and Michelle Lischinsky, who made the Sydney Olympic team and are in their mid-20s, probably don't even think about societal acceptance when they choose to stay in the sport. Women from other eras and sports laid the groundwork for them. Instead, they say they still swim after almost 20 years because they keep improving and it's fun. "It's such a lifestyle," said Lischinsky. "It's hard to give that up."

But there are physical—and fiscal—obstacles.

"When I was younger, I was always under the assumption that when you reach 16, 17, 18, that's when you peak," said Lischinsky, 25, for whom the Sydney Olympics will be her first senior international

team. "So a lot of girls, especially, give it up after that, and I think I did assume that. But I realized that that's not true. There's so much more to it. There's a huge mental aspect. When you get older, you're much more mentally equipped to deal with different situations and I think that's really important. I'm enjoying that part of it."

Women also tend to get stronger as they get older, though it may take them longer to recover. "I've noticed it's taking me a lot more to warm up and a lot more to warm down," said Limpert, 27. "But I've leaned out and my strength-to-weight ratio is better. I can do a lot more chin-ups than I could do when I was 18 or 19."

Limpert's coach in Vancouver, Tom Johnson, said that since women are staying longer in swimming, the onus is on coaches to learn how work with them. It used to be that once a swimmer's life got complicated—with weight gains and losses, heartbreaks, other interests—coaches could move on to the next swimmer, he said. No more.

"Coaches just have to work harder to understand their athletes."

They also have to work harder to vary the training and competing regimen. "(Older swimmers')

needs are dramatically different," said MacDonald. "They can't be swimming the five-hour sessions at age-groups anymore. They'll burn out." The World Cup circuit was born out of the idea that senior swimmers need regular international competitions that keep them sharp and pay them for winning. Prize money, combined with national carding, helps many senior athletes swim longer. "As there's more money coming into the sport, that's a huge motivator," said Limpert. "Now, I think you can make just as much swimming as getting a job. It's the case for me."

But swimmers like Lischinsky, who has never raced internationally, do not have the allure of cash prizes at international meets. What they do have is the benefit of Canada's four national training centres, which receive SNC funding for perks that include sports psychologists, massage therapists, and nutritionists. The centres tend to draw senior, carded swimmers who swim full-time. "I agree with training centres for older swimmers," said Gary MacDonald, an age-group coach in Halifax. "They've gone through club and university swimming. They can be with peers who have one job only: to swim fast."

The training centres are useful for these athletes because they generally train with their peers, not age-groupers, and they're well funded, so coaches can focus on a handful of athletes. But many club coaches aren't fond of them because they steal their best swimmers each year.

"The entire swimming culture is changing because people are swimming older," said Byron MacDonald, who is working on getting a training centre in Toronto. "When top athletes don't retire, it starts to get bunched at the top of the rankings. So it

Reason to smile for Joanne Malar—going to third Olympics as a medal favourite

Backstrokeur Michelle Lischinsky

Marco Chiesa

is getting really hard to break into the top. You have to do more little things as a coach. Most of the best coaches in the world coach 6 to 10 athletes (max), because the margin of error is getting so small. But clubs can't afford to have a coach only coach 6 to 10 kids."

The system now is such that club coaches groom young swimmers for national-level competing, then watch as their protégés emigrate to a national training centre. "This is a drastic change for coaches," said MacDonald. "It's going to be tougher to coach kids to the international stage. Coaches will coach young kids, service young swimmers' needs, and then let them go. What does that mean? It means that a whole generation of coaches is going to be shut out of Olympic dreams."

According to a recent article in *SwimNews*, Swimming/Natation Canada is trying to find new ways to recognize and compensate club coaches, as well as to link the centres to development programs. But even if such programs are implemented, that won't prevent what MacDonald calls "the most radical transformation since the early '70s, when volunteer coaches became paid coaches. It's the second major revolution in the industry."

And all because swimmers are staying in the pool longer? Maybe not, but the impact of this is indelible.

Most swimmers in their 20s, however, probably don't think about the "revolution" they've helped initiate. They just want to swim fast.

"If I had won the gold medal (in Atlanta), I think I would have quit," said Limpert after her 200 IM final at Olympic trials. "I guess if I'm able to perform at that level and still enjoy myself, I figure, why not? Originally I was thinking of retiring after Sydney, but now I think I might take it year by year."

IT'S NOT CALLED TRIALS FOR NOTHING

Nikki Dryden

I guess you are wondering why I am writing another journal, when in October 1998 I spoke of my retirement. Well I have to admit, the intoxicating aroma of chlorine after you lick your hand and the heart-pounding moment when the alarm goes off for morning workout were just too much for me to stay away from. So I came back to swimming in September with the expressed goal of trying to make the Olympic Team.

Here's how it went.

May 26—We arrived in Montreal yesterday. I am feeling like lead and although I've been tapering for over 12 years I still worry my taper will never hit. I still need reassurance from my coach Andy that my speed will eventually come.

May 27—I've never noticed such tension before; everyone is running around so serious and stern-faced. Anxiety and stress ooze from the building. Warm ups are a madhouse; everyone in the water is very aggressive and uncompromising. I try to remember if I was ever like that. I think I was, and I don't recall enjoying myself all that much.

May 28—I almost forgot that this is the OLYMPIC TRIALS! So many swimmers take this meet for granted, thinking the Olympic Games is just another national team trip. Once you've been there you realize it's not as easy as it looks. It's a battle and often gets quite ugly. But it is exciting. I live for fast swimming and the celebrations of successful swimmers.

May 29—I got behind the blocks tonight and almost said aloud, "this is so much fun!" I have never been so happy about swimming before. I was truly cherishing the moment—taking pleasure in the entire experience from warm-up to the ready room to the race itself. But the Nikki of old resurfaced instantaneously as I saw the scoreboard and my fifth place.

Who cares that I was faster than heats—I did not think I had made finals and that infuriated me. Just as quickly as my anger emerged, so did it subside as I saw the second and slower semi. I had a lane and that is all one needs.

May 30—Nice try! That wasn't even worth the effort. Surprisingly I wasn't the only one—I went slower yet moved up two places in the finals. Go figure. Before the race Julie Howard shook my hand, "Our last 100 back final at Olympic Trials." We were

like a team, doing it for the old girls. But history didn't repeat itself. Jules and I were not to reclaim our 1-2 place from '92. Instead the most deserving woman in Canadian swimming made the team and I couldn't be happier had I made it myself. My new hero Michelle Lischinsky, at the age of 26, made her first national team and is going to Sydney!

As for me, doubt has been creeping into my mind. With every race and every one of my friends who makes the team, a part of me grows envious and worried. Will I ever be able to do this?

May 31—I had to get out of our hotel and away from the pool, so a group of us went to old Montreal and got to see Edward Norton and Robert De Niro filming a movie. Sadly, that excited me more than my own swimming.

I am having a hard time reconciling my newfound love and happiness for swimming and my mediocre performances. Can I really love swimming slow?

June 2—I woke up feeling sick today—just my luck. So of course I start doubting myself again; I start remembering the horror of last Olympic Trials when I couldn't even breathe. This meet is so long. I am trying to stay focused and positive but it is not easy.

Felt better tonight. Maybe it was nerves? But the last time I got nervous about my swimming was at the Hyack Invitational in 1987. I have always been so on top of my game, yet I feel very detached from my strength lately. I better find it fast because I have to drop 5 seconds by tomorrow night.

June 3—The Nikki of today is a horrible role model for young swimmers. As I was coming under the flags tonight, I could hear Chris Wilson's voice over the loud speaker. I didn't know where I was, but I knew I wasn't winning, not even close. All I could hope was that someone else didn't make the time. When I knew I had another chance to make the team I checked my time. I wish I hadn't. No speed, no endurance, no strength.

The aftermath of a bad meet is always a challenge. Having to explain to everyone that you are not suicidal, that you have another chance to make the team in August—it is all so embarrassing. But I do have another chance and rather than dwell on the fact that I need to drop four seconds off my best time from this year, and beat other hopefuls, I am heading back to the pool and back to work. Focusing on what I can do is a much better idea than dwelling on what could have been.

The appointment of Shauna Nolden to the Olympic Team as a female coach has unleashed an unprecedented flurry of media coverage. Whatever positive coverage was generated by the actual swimming results, this issue alone has erased all of that. What follows is the position of the CSCA followed by some comments received.

Statement of the Canadian Swimming Coaches Association (CSCA) On the Women in Coaching Initiative for the 2000 Sydney Olympic and Paralympic Games

The Canadian Swimming Coaches Association (CSCA) strongly endorses "Women in Coaching" initiatives as a desirable and necessary component of guiding and serving swimmers in Canada. The CSCA supports the strategic direction as enunciated by Swimming / Natation Canada (SNC) to increase the numbers of effective women swimming coaches at all levels of the sport.

The CSCA is deeply concerned that the current initiative to nominate women coaches to the 2000 Sydney Olympic and Paralympic Games as announced by SNC was not implemented through a clear and inclusive process with objective and tangible criteria. This lack of formal process undermines all swim coaches in Canada, specifically women coaches. We believe that a formal process can be undertaken prior to the August 6th, 2000 deadline for nomination of the swimming team and staff to the Canadian Olympic Association. The CSCA's position is that a formal process should be defined promptly and must include technical overview by the CSCA in it's traditional role as the "technical voice of Canadian swimming coaches" to the SNC board of directors and appropriate sub committees of that Board.

It is recognized by our CSCA membership that women's initiatives can make a positive contribution to professional development and have the potential to and will contribute to the performance of the athletes. The CSCA accepts that an opportunity is at hand with the upcoming 2000 Sydney Olympics and Paralympics to advance the agenda for women coaching initiatives forward with respect to having a woman coach inside the Olympic and Paralympic teams. The CSCA supports SNC in its recognition of the need to create long-term systemic change.

In the current air of condemnation, it is the assessment of the CSCA that rationale and subjective criteria is being constructed to fit the situation of the appointment of the women coaches. Many swimming coaches in the field, members of the CSCA, have voiced their condemnation of SNC for its failure

to outline a clear and objective process for the selection of women coaches, and for its failure to permit application from all interested and eligible potential candidates.

The CSCA officially request the following:

1. In view of the August 6th, 2000 deadline for nomination of the team to the Canadian Olympic Association (COA), that adequate time is available to implement a clear, inclusive, objective and tangible process. The CSCA's position is that such a process should be defined promptly and that it must include the formal technical involvement of the CSCA organization with its parent partner SNC *vis-a-vis* the SNC selection committee.

2. That the current nominations for the woman's initiative for the 2000 Olympic and Paralympic Games be temporarily suspended until an approved selection process can be applied to all candidates qualifying.

3. In light of the Canadian Olympic Association's, Sport Canada's (SC) and the Coaching Association of Canada's (CAC) proactive stance on educational professionalism via the NCCP program, the CSCA requests that the formal selection process include but not be limited to performance, certification, published criteria and due process.

We look to SNC, CAC, SC and the COA, our sport leaders to apply consistency and objectivity when establishing incentives for any and all coaching development. The highest public and professional recognition that can be conferred on a coach is being named to the Canadian Olympic Team staff. Fairness and clarity in creating opportunities for that recognition are essential. Olympic staff status must never be granted lightly. Athlete performance at the Trials and a commitment to professional development via NCCP are keys to validating professional status and eligibility for coaching development initiatives. All coaches within the high performance swimming community should meet the same minimum standards of performance and commitment; all criteria must be public, transparent and reflect ethical integrity.

There is an opportunity at hand to raise professional coaching development, and the sport of swimming to a new level, with lasting positive impact and long term systemic change. It is the CSCA's opinion that that the Olympic movement is about ethical integrity and credibility. Quoting Mr. Victor Lachance, chief executive officer of the Canadian Centre for Ethics in Sport, "There have been historical wrongs [limited roles of women in sport] but you

can't lose another principle in addressing them. You can't trade one noble principle — objective selection of staff — for another, advancing women in sport." (*The Globe and Mail*). We represent the entire professional swimming coaching community in Canada and as members of SNC are hopeful that our sport governing leaders will heed our concerns.

*CSCA Board of Directors

President – CSCA*

Editor: Regarding Head Coach Johnson's superelasticized qualification measuring tape for female Olympic coaches. Do I smell politics?

The more things change, the more they stay the same.

*Bernard McGrath
Gibsons, B.C.*

Editor: I am writing to applaud the decision by Swimming Canada to appoint Shawna Nolden to the Olympic staff. As odious as the process may have been, the reality is that swimming continues to suffer from a severe lack of female coaches in the upper echelons. Something needs to be done to address this.

While affirmative action type programs may not always be the best solution, an important factor here was that this was an extra position that was created and thus was outside the published SNC guidelines. Using the original team size guidelines as a basis, no coaches were left off the team. As a result, this was truly an extra position that coaches entering the Trials could not have relied upon for their selection hopes.

The major indictment of this appointment was the apparent lack of due process. However, given the paucity of female coaches at the elite level there is little process that can be achieved. Indeed, it is likely that the potential female candidates could have been counted on one hand. With so few female coaches, if a truly objective selection criteria was always used, it could result in the female staff member always being one of the same two or three coaches. This would only slow down the growth rate of women in coaching.

Let's hope that by the time the 2004 Olympics roll around we have sufficient numbers of qualified female coaches that there can be both an objective selection criteria and a true competition amongst female coaches for those positions.

BACKWASH

Backwash features short clips, gossip, letters, and opinions. Contributions are welcome at our e-mail: swimnews@inforamp.net. Now for the rumours behind the news.

Melbourne hosts World Cup: In a bold move to outbid sister Australian city Sydney, the Victorian government Events Marketing Corporation put the money on the line to win the rights to conduct the Australian meet in the FINA World Cup series, starting December 2000.

Melbourne is the host city for the 2006 Commonwealth Games and boasts a new Aquatic Centre with an indoor pool of 75 metres with two bulkheads, allowing three 25-m pools end to end; perhaps an ideal configuration for an event such as a FINA World Cup swimming competition.

The FINA World Cup swim series has been re-designed to a total of 8 high profile events in major cities around the world, including Washington, Berlin and Paris. The Melbourne event will be conducted from December 5-7, 2000 at the Melbourne Sports & Aquatic Centre.

Chiba's Waterloo: Japanese swimming star Suzu Chiba, 24, won't get to compete in Sydney.

At the Japanese Olympic trials in April, Chiba won the 200 free in 2:00.54, half a second under the FINA Olympic standard. The next day, her coach, Waterloo's Bud McAllister, found out that Chiba didn't swim fast enough to make the team. The reason: the president of the Japanese Amateur Swimming Federation decided that only potential medallists should swim in Sydney—it wasn't enough to merely qualify. To make the team, therefore, men must be ranked top 12 in the world; women, top 8.

But, according to McAllister, JASA failed to announce these additional criteria before the meet began. And to make matters worse, the federation was inconsistent in its selections. The Japanese team will include two 1500 freestylers who "have no chance to medal," he said. It will not include a male 200 breaststroker currently ranked second in the world.

Chiba and McAllister have filed an appeal with the Court of Arbitration for Sport (CAS) in New York.

Chiba has been racing internationally since 1991 and is a celebrity in Japan. She's been training in the US and Canada since the early 1990s and, said McAllister, she has no plans to return home. "The pressure was so intense (in Japan). When she doesn't win, she's a failure."

Chiba was not left off the team because Japanese officials were bothered by her decision to train in North America, said McAllister. One of the Olympic-qualifying 1500 freestyler, whose time is lower-ranked than Chiba's

200 free, trains in Australia.

McAllister believes there are other reasons. "(Chiba) has a history of speaking her mind and not being afraid to criticize," he said. "The culture is different there. You don't question authority in Japan."

Whatever the result of the CAS appeal, McAllister said Chiba probably won't be swimming in Sydney. But he said she's fine with that. "Even if they reverse (the decision), it would be hard to join a team that didn't want her. The main reason we appealed is so they don't do this again," he said. "Suzu's relieved. When she fails, they criticize her in the media. She's had a long career. She's happy."

Backstroke turns: In the recent World Short Course Championships in Athens, Neil Walker set world records in the 50 and 100 backstroke. In these races it was apparent that during the turn he continued making a leg action whilst on his front. The reaction of the audience was one of disbelief whenever he turned as everyone thought the law prevented such a kick action—indeed no other swimmer in the competition was making such a leg movement, or aware that they could. Apparently the officials at the meet said that there was a new interpretation of the law, and therefore, Walker was not disqualified.

In the recent Swedish Grand Prix meet in Gothenburg, the referee made it clear at the technical meeting that such a turn would be disqualified at this meet. Therefore, which rule do we follow that will allow everyone the same opportunity to swim fast? The Walker turn is faster—there is no doubt about this.

I am wondering what the swimming world thinks of this? What can we do and what can't we do on the backstroke turns? Perhaps somebody can explain this matter.

*Brian Marshall
National Coach, Iceland*

Editor: I have noticed a great deal of misinformation concerning the effect of drag reduction on final time reduction. In short, a 10% reduction in drag coefficient does NOT translate into a 10% reduction in a swimmer's final time.

I am an engineer, a swimmer, and a coach. As an engineer, I am ethically bound to tell you that I am under contract with Speedo America. Specifically, I invented a vortex modification to swimwear worn by Jenny Thompson and Lenny Krayzelburg when they set their world records at the 99 Pan Pacs in Australia.

That being said, my purpose here is to clear up misconceptions in the swimming community concerning the effect on final time of ALL manufacturer's reduced drag swimwear. Consequently, the information below is applicable to any manufacturer's claimed drag reduction.

The power requirement for a swimmer goes up

approximately as the cube of velocity. This means that to go TWICE as fast a swimmer must work EIGHT times as hard. However, power varies directly with drag coefficient. Doubling the drag coefficient requires a swimmer to work TWICE as hard to hold the same velocity. In effect, the power required to swim faster far outstrips the power reduction due to a "faster" suit.

I will not go into a detailed derivation here. However, if one assumes a constant power output (i.e. the swimmer is working as hard as he or she can), the change in final time can be estimated as follows:

(New Final Time) = (Old Final Time) x [cubed root of] (1 - drag reduction)

For example, if a swimmer who's best time over 100 is 60.0 dons an ACME Drag-Be-Gone suit with a claimed drag reduction of 4% (note that 4% = 4/100 = 0.04), his new final time would be: (New Final Time) = 60.00 * [cubed root of] (1 - 0.04) = 59.19, which is an improvement in the final time of 1.3%. This is a very rough estimate and neglects, amongst other things, the effect of surface swimming versus underwater kicking. It does, however, give a much more accurate idea of the effect of a reduced drag suit.

In essence, while a better suit has an effect, it is far less than the effects of improved technique and fitness (i.e. showing up for workout and listening to your coach).

*John Waring, Head Coach
Carleton University Swim Team*

P.S. If you are a glutton for detail, a more thorough examination of the effect of drag reduction on swimming can be found in my thesis at :

<http://home.istar.ca/~waring JW>

Editor: Congratulations for creating and maintaining a wonderful online swimming resource. SWIMNEWS is a terrific publication, a first class collection of timely results, informative articles, and creative swimming journalism.

I have been a loyal reader since my first years of competition, and admire Mr. Thierry's consistency and dedication to competitive swimming. Nick, you're a veritable encyclopedia and an invaluable contributor to our sport.

Hats off to Ms. Dryden and her recent article regarding swimming etiquette. Nikki addressed several key issues that are often ignored by rookies and experienced swimmers alike. Every Age Group, Masters, and College team should have a copy on hand.

All the best to the staff at SWIMNEWS, you exemplify professionalism.

*Lee Wanie
San Francisco, California*

*Remember ... It's not true until it has been
officially denied*

HONOURS

SWIMNEWS EDITOR/PUBLISHER SELECTED TO ISHOF

Nick Thierry, editor and publisher of *SWIMNEWS* magazine, has been selected as an Honor Contributor to the International Swimming Hall of Fame. He will be inducted one year from now along with swimming legends Janet Evans and Jeff Rouse, among others.

Nick has published *SWIMNEWS* (it was originally called *SWIM Canada*) since 1974. He began his coaching career in Ontario in 1961 and was head coach of the Canadian Commonwealth Games team in 1970. He has coached Pan Am, Commonwealth, and Olympic medal winners. Nick is also a member of the Ontario Swimming Hall of Fame.

INTERNATIONAL SWIMMING HALL OF FAME HONOREES 2001

Michelle CALKINS (CAN)	Synchronized Swimmer
Krisztina EGRSZEGI (HUN)	Swimmer
Janet EVANS (USA)	Swimmer
Patty Robinson FULTON (USA)	Masters Diver
Carlos GIRON (MEX)	Diver
Robert M. HOFFMAN (USA)	Pioneer Contributor
Tom JAGER (USA)	Swimmer
Alexander S. KABANOV (RUS)	Water Polo Player
Koji KATO (JPN)	Coach
Jeff ROUSE (USA)	Swimmer
Nick THIERRY (CAN)	Contributor
Wendy WYLAND (USA)	Diver

Dear Nick, It is my sincere pleasure to inform you of your selection as an Honor Contributor into the International Swimming Hall of Fame. You will join Honorees from around the world as you are recognized and immortalized for your achievements.

The International Swimming Hall of Fame, located in Fort Lauderdale, Florida, was officially recognized by FINA at the 1968 Olympic Games as the official International Hall of Fames for all aquatic disciplines. During the past 30 years we have honored the world's greatest aquatic heroes. Enclosed is a list of other 2001 Honorees who will be inducted with you, as well as a comprehensive program from the 2000 ceremony brochure about the Hall of Fame.

We hope you will accept this honor and we encourage you to attend our induction ceremonies, which will take place in Fort Lauderdale, in May 2001. Information will be sent to you shortly containing dates and schedules, etc.

The mission of the International Swimming Hall of Fame is to preserve and present the achievements of the aquatic greats so that other aspiring athletes may benefit from the experience.

I am delighted to extend my congratulations to you for having been selected to this elite group. We look forward to seeing you and making this a memo-

orable occasion for you and the entire aquatic world.

*Samuel James Freas,
ISHOF President/C.E.O.*

I know you're busy right now, but just wanted to say *congratulations* on your induction. Very deserving!

*Jack Simon, Head Coach
Carson City, NV*

A hearty congratulations on your selection to the International Swimming Hall of Fame—you certainly deserve to be in there! Well done, and I am very pleased with you finally getting the recognition you so well deserve. Your dedication to the swimming world community is beyond all expectations. Thanks for all your great work over these many years. I hope that you are able to keep going, without you at the helm of your magazine I don't know what would happen? All the best, and keep up your fantastic work!

*Jack Kelso, Sports Historian
Vancouver, B.C.*

Congrats on being an honoree in the ISHOF, 2001. Maybe I'll be well enough to be at your induction. Again congrats., could not happen to a better guy.

*Al Schoenfield, former owner Swimming World
Los Osos, CA*

You've earned it. Congratulations! I'm proud to have helped.

*Greg Hemstreet, Pervasive Software
Austin, TX*

Let me congratulate you on your induction at the ISHOF. Well deserved.

*Camillo Cametti, FINA Press Commission
Verona, ITA*

Long time no see. Just wanted to congratulate you on getting into the ISHOF. You certainly have dedicated your life to keeping us all informed. Thanks.

*Don Gambriel
Former US Olympic Coach*

J'ai appris avec beaucoup de plaisir ta recente nomination à l'ISHOF, j'étais persuadé de cela lorsqu'on m'a demandé de voter et je n'ai pas hésité une seconde pour cocher ton nom car tu l'as bien mérité, ma femme et moi te félicitons chaleureusement bonne continuation et à bientôt.

*Chaker Belhadj, FINA Press Commission
Tunisia*

Congratulations on a well deserved and fitting honor, as you know I've been around this sport for a number of years and until I came to Canada I was never fully aware of the tremendous assistance a statistician could have for me as a coach and the swimmers I coached. When you multiply that impact by the hundreds of coaches and swimmers you reach, it's an amazing accomplishment.

Nick, once again congratulations and thank for all you've done and continue to do for our sport.

*Paul Bergen, Head Coach
Tualatin Hills SC, OR*

RECORD SETTERS

WORLD RECORDS

pending FINA ratification

Men 50 freestyle:

• 21.64 Alexander Popov, RUS, Moscow, June 16
Better old record of 21.81 Tom Jager, USA, 1990.

Men's 100 breaststroke:

• 1:00.36 Roman Sloudnov, RUS, Moscow, June 15.
Better old record of 1:00.60 Fred deBurghgraeve, BEL, 1996.

Men's 200 butterfly:

• 1:55.18 Tom Malchow, USA, Charlotte, Jun 17.
Better old record of 1:55.22 Denis Pankratov, RUS, 1995

Women's 50 freestyle:

• 24.51 Inge de Bruijn, NED, Sheffield, May 27 (ties)
• 24.48 Inge de Bruijn, NED, Drachten, Jun 4
• 24.39 Inge de Bruijn, NED, Rio, Jun 10
Better old record of 24.51 by Jingyi Le, CHN, 1994

Women's 100 freestyle:

• 53.80 Inge de Bruijn, NED, Sheffield, May 28.
Better old record of 54.01 Jingyi Le, CHN, 1994

Women's 50 backstroke:

• 28.25 Sandra Volker, GER, Berlin, Jun 17, prelims
Better 28.67 Mai Nakamura, JPN, Apr 2000

Women's 50 butterfly:

• 25.83 Inge de Bruijn, NED, Monte Carlo, May 20
• 25.64 Inge de Bruijn, NED, Sheffield, May 26
Better old record 26.29 Anna-K. Kammerling, SWE, 1999

Women's 100 butterfly:

• 56.69 Inge de Bruijn, NED, Sheffield, May 27
Better old record of 57.88 Jenny Thompson, USA, 1999

Seven in a row for de Bruijn

It's Fast, Easy & FREE

Web based e-mail for the entire swimming community

What is SwimMail?

SwimMail is a free internet e-mail account that allows you—swimmers, coaches, officials, parents, and fans—to access your e-mail from any computer in the world with a browser. All you need to do is Sign up and Login.

This means while you are at school, at work, at the local public library, or while traveling to swim meets, you'll be able to check your e-mail! SwimMail gives you one central place to store and read all your messages. Your account will have the same messages in it no matter where you check it. And, since your e-mail address looks like:

yourusername@SwimMail.com, people can instantly tell you are a swimmer.

SwimMail is Private, Personal & Permanent

Your SwimMail account is accessible only by your secret password, which can be changed as often as you like.

It's personal. You can give your account any name you like and because we're not as big as similar services like "Hotmail" you are more likely to get the username you really want, without giving up any of the services.

You can change schools, colleges, teams, programs, jobs, or ISPs without having to change your email address.

You can move or travel without having to inform your friends of your new e-mail address.

Your SwimMail account will stay the same no matter where you go.

So don't delay. Go to www.SwimMail.com and sign up today!
