RECORD SETTERS

CANADIAN RECORDS AT THE OLYMPICS

• Men's 200 freestyle:

1:48.62 Rick Say, IS, Sept 17, prelims

1:48.50 Rick Say, IS, Sept 17, semifinal

Bettors former record of 1:48.86 Say, March 8, 2000

• Men's 100 breaststroke:

1:01.58 Morgan Knabe, UCSC, Sept 17, final

1:01.60 Morgan Knabe, UCSC, Sept 16, semifinal

Bettors old record of 1:01.69 by Knabe, May 29, 2000

• Men's 100 butterfly:

52.58 Michael Mintenko, PDSA, Sept 22, final

Bettors old record of 52.88 Mintenko, Aug 4, 2000

• Men's 400 individual medley

4:15.33 Curtis Myden, UCSC, Sept 17, final

Bettors old record of 4:15.52 Myden, Aug 3, 1999

• Men's 4x200 free:

7:21.45 Olympic Team, Sept 19, prelims

Bettors old record of 7:22.74 from Worlds, Perth, 1991

• Women's 100 freestyle:

55.87 Marianne Limpert, PDSA, Sept 16, relay prelims

Bettors old record of 55.94 Laura Nicholls, Aug 27, 1999

• Women's 200 freestyle:

1:59.85 Marianne Limpert, PDSA, relay lead-off final

Bettors old record of 2:00.21 Jessica Deglau, Aug 2, 1999

Six Canadian records by Marianne Limpert

• Women's 200 individual medley:

2:13.59 Joanne Malar, UCSC, Sept 18, semis

2:13.44 Marianne Limpert, PDSA, Sept 19, finals

Bettors old record of 2:13.63 Malar, Aug 24, 1999

• Women's 4x100 medley:

4:07.55 Olympic Team, Sept 23, finals

Bettors old record of 4:08.13 Pan Pac Team, 1995

• Women's 4x100 free:

3:43.82 Olympic Team, Sept 16, prelims

3:42.92 Olympic Team, Sept 16, finals

Bettors old record of 3:44.50 Pan Pac Team, 1999

• Women's 4x200 free:

8:02.65 Olympic Team, Sept 20, finals

Bettors old record of 8:05.56 Pan Am Team, 1999

Martin,

I wanted to write you to thank you very much for the wonderful camp Jenn attended. She had been looking forward to this camp for a very long time. It met and exceeded her expectations. She feels the camp and the people were awesome and she had a blast! She gained a lot of confidence and independence from the experience. The extra effort getting her there with your team was generous, thanks again.

ABOUT THIS ISSUE

The Olympic Games are the most important sporting event every four years. It is the dream sustaining many swimming careers. For the few that actually get to the Olympics it becomes a defining moment of their sporting life.

The 39 Canadian swimmers who earned an Olympic team spot included three competing at their third Games—a not uncommon occurrence today. Some of the greatest names in sport have attended even more, most notably British rower Steve Redgrave, 38, who won his fifth consecutive gold in Sydney after five Olympics, the best ever for an endurance sport athlete. However the all time record for most golds is held by a Hungarian team sabre fencer with six, for the period 1932 to 1960. It could have been higher as there were no Games in 1940-44.

The Sydney Games were truly magnificent, with swimming the focal point for the first week.

The match-up between the United States and Australia was evident on the first day, but the Europeans stole the limelight in the next seven days. The 15 world and 38 Olympic records were the best for the past 25 years. The intensity of the competition was unprecedented and those lacking the experience of this high competitive level were at a disadvantage.

There were problems for some Canadian team members and their parents and hopefully airing these will lead to better preparations for the future.

Canadian swimmers were pushed hard, only seven swimmers reached finals (in eight events) and they had to be at Canadian record level to do so (with two exceptions). Five of the six relays reached finals, four in record times. The implications of this for future World and Olympic competitions is the most important lesson to be learned.

The need to be exposed to the highest level of competition available, both within the country and internationally is the challenge ahead. In Canada much of the domestic intensity has been lacking for the past few years. There are too many competitions where everyone swims through. There needs to be a greater emphasis on vigorous domestic competitions. Internationally, much of what Canadians do does not prepare them for the Worlds or the Olympics. The Pan Ams and Commonwealths are not at a high enough level, although a great experience. The short course Worlds and World Cups are misleading as few of the best swimmers take part, although they are good experience for developing swimmers.

Top 50 TAG times for the long course season are also included in a special 16-page section.

Let us know what you think about the topics raised in this issue. The best way is by e-mail to: swimnews@inforamp.net.

Louder, faster best-ever Olympics

Al Schoenfield

AUSIE, AUSIE, AUSIE, OI, OI, OI. If you were at swimming during Olympic 2000, this chant that erupted into a roar was the overture that shook the very foundation of the Olympic Aquatic Center. It played before the greatest Olympic swimming competitions ever held, and I can say this without fear of contradiction, for I have been to them all since 1960.

In Australia, where swimming is a national sport, that first night set the stage for the greatest and fastest swimming the world has ever seen. The first night, with five world records, aroused the 17,500 spectators. When the Ausies defeated the U.S. in the men's 4x100 freestyle for the first time ever, the aquatic center shook in earthquake proportions.

Swimmers set 15 world records, compared to 4 in Atlanta, and 38 Olympic records in 25 events.

The Netherlands' Inge de Bruijn, 27, was the best female swimmer of the Games with three gold medals, one silver, and three world records. Fellow countryman Pieter van den Hoogenband, winner of two golds, two bronzes, and three world records, was the best male swimmer of the Games.

DUTCH SWIMMERS STOLE THE SHOW

Karin Helmstaedt

The superlatives have run out. Now that it's over, all that remains on the lips of bewildered observers is the trace of a word that overrides all: Wow!

The swimming events at the 2000 Olympics in Sydney turned out to be nothing less than the meet of the millennium. With 15 world records broken and with eight of them set in the first two days, it was enough to rekindle discussion over the limits of human performance.

It started off with a bang. With his 400 metre freestyle victory, Australia's Wonderboy Ian Thorpe pushed the sport into another dimension. The man known Down Under as the "Thorpedo" bettered his own world record, the seventh in nine months, from 3:41.33 to 3:40.59. Less than an hour later he anchored Australia's 4x100 freestyle relay and made swimming history when he touched the wall before his American challenger Gary Hall. It was the first time since the inception of the event that the USA had lost. Thorpe now has his face on a postage stamp at the tender age of 17.

But that was about as heated as it got in the long-awaited American-Australian rivalry. European swimmers started staking their territory on the first day. Jana Klochkova of the Ukraine won her first of two golds with a world record in the women's 400 metre individual medley (4:33.59)—knocking more than a second off Chinese swimmer Yan Chen's 1997 mark of 4:34.79. Romania's Diana Mocanu scored her country's first swimming gold in the 100 back, then made it a tidy double by winning the 200 as well. Italian swimmers set 24 national records in total, with Domenico Fioravanti and Massimiliano Rosolino turning in extraordinary performances in the breast-stroke and medley events.

(Editor's Note: That tally was overshadowed just two weeks after the Games were over when five Italian gold medalists, including Rosolino, were reported to have shown abnormally high levels of human growth hormone in a series of tests conducted by the Italian Olympic Committee (CONI) before the Olympics. See the accompanying report.) Lars Frolander of Sweden caused another major upset when he beat out Australian favourites Michael Klim and Geoff Huegill to steal the gold in the 100 butterfly.

The undisputed stars of the meet were without a doubt Inge de Bruijn and Pieter van den Hoogenband of the Netherlands. Van den Hoogenband, who came

away from last year's European championships with six gold medals, stole the show from both Australia's Thorpe in the 200 freestyle and Russian sprint Tsar Alexander Popov in the 100 freestyle, and a nation that had never won Olympic gold in men's swimming suddenly had two to its credit. The first man to swim under 48 seconds for the 100 metres (47.84 in the semi-final) shrugged his shoulders when asked if he could guarantee he was clean. "Every day I have to pee into one of those little bottles. It's impossible to take drugs."

Given that all winners had to undergo doping control, the same was true of his countrywoman Inge de Bruijn. Carrying on a great Dutch tradition in women's swimming for most of the past century, 27-year-old de Bruijn could hardly jump in the water

MEDAL STANDINGS

without coming out a world record richer. TV commentators gushed words like "Unbelievable!" and "Incredible!" as she left the field in her wake in both the 100 freestyle and the 100 butterfly. They marveled at her astonishing rate of improvement so late in her career. After her 50 freestyle world record in the semi-final, one even used the word "monstrous." And if there were those who shook their heads as she clocked her tenth world record since last May, or felt uncomfortable about her remarkable physique, there was no hard proof that anything at all was amiss, and without that, it's all OK.

But despite the lack of proof, despite the collective ecstasy of nearly 18,000 roaring spectators, at the end of the day, it's all a bit unsettling. Unbelievable, yes. Incredible, yes. We've seen it all coming, and it looks like we'll see it go further.

(Nick Thierry, the world's leading swimming statistician, said of the European performances, "This has been in the cards since the last two European championships. And when you consider that France, Germany, and Great Britain were kind of poor (in Sydney), Europe could have been even stronger!")

So how to explain the onslaught of world records this late in the game? Many postulated the pool with its special wave reduction technology was the main reason. The new full body swimsuits, meant to convert human skin into shark skin, added another variable. Harder training, superhuman talent. All valid points. But to what degree?

The question of how much pharmaceutical manipulation is at work floats in the minds of all the experts. But given that testing procedures are still inadequate at best, one of them concluded ruefully, "We've been duped before."

A new test for erythropoetin (EPO), which increases an athlete's red blood count and amounts to an artificial form of blood doping, were to be carried out on some 300 athletes over the course of the Sydney Games.

That's not many given that there were over 10,000 competing. And the problem with the dual blood and urine test is that both samples have to be positive to constitute a doping infraction. Because EPO can only be detected in urine for up to 72 hours, it's unlikely the test will be any more effective than the urine tests used until now.

John Leonard, executive director of the American Swimming Coaches Association, is loath to be duped again. He said, "The test for EPO is a joke. Essentially it allows the athletes to take the stuff up to three days before their event. It's like a licence to dope, and it looks like lots of athletes will use that window."

"Unfortunately there are no world records these days that don't give rise to questions. It's my opinion, there are quite a few (swimmers) who are tainted. And that also makes quite a few medals."

Which ones would those be? No comment. Speechlessness is going around these days. And just as the swimmers have broken new ground in the sport, we may have to come up with some new words.

Five world and nine Olympic records tumbled on the first day FOR an incredible start

Two golds in world-record time for Ian Thorpe (AUS) on the first day

Marco Chiesa

Nick J. Thierry

WOMEN'S 400 INDIVIDUAL MEDLEY

A world record started off the first day as Yana Klochkova (UKR), in the lead throughout with a fantastic time of 4:33.59, bettered the old record of 4:34.78 by Yan Chen from 1997. It was also an Olympic record, bettering the 4:36.29 by 1980 Olympic champion Petra Schneider, GDR.

Klochkova took the lead on the fly leg with a 1:01.62, following with a 1:10.68 for the 100 back,

1:19.33 for the 100 breast, and finally a 1:02.96 for the 100 free. Yasuko Tajima (JPN) was second with 4:35.96 and Beatrice Caslaru (ROM) was third with 4:37.18; both were personal bests.

"I can't believe it," Klochkova said. "I wasn't expecting it to be this fast. I did dream it. I was watching myself winning it."

On setting a world record: "I wasn't expecting it today. It was in my dream."

"I am disappointed, very disappointed," second-place Yasuko Tajima said. "I lost my confidence. I

really wanted the gold. I could see the crowd on the last length and gave my very best and still lost."

"I dedicate my swim to my family and home club Pitesti in Romania," bronze winner Beatrice Caslaru said. "They have helped me so much."

It was a big disappointment for Joanne Malar (CAN) who qualified sixth with 4:42.65. Ranked second in the world last year in this event, she was expected to reach the podium. In 1996, the pressure undid Malar in this same event, where she was expected to win a medal but missed the final.

But clearly it was not to be. On the day when she had to be better than ever, she faded out of contention almost at the start. In fifth at the 100 after the fly (1:03.95), she lost it on the backstroke (2:16.77). "I felt good until the backstroke, but by then my legs were gone," Malar said. After the breaststroke leg (3:39.01), she was in seventh, about 15 metres behind the leader and 10 metres from a medal.

In the morning, she wore the full body suit but switched to a traditional suit for the final. "This morning my legs were tight. I didn't know if it was the suit or me, so I decided I'm not going to chance it and go with what I'm used to. My legs still tightened up."

MEN'S 400 FREESTYLE

This event ended with a second consecutive world record as Ian Thorpe (AUS) gave a perfect display of technique and pacing.

He was just ahead of his record pace throughout the distance with times of 52.64, 1:48.86, 2:45.09, and 3:40.59 to better his own world record of 3:41.33 from last May.

In second was Massimiliano Rosolino (ITA) with 3:43.40, a new European record and an improvement of five seconds from his personal best from last year. Both bettered the Olympic record from the morning's prelims of 3:44.65 by Thorpe.

American rookie, 17-year-old Klebe Keller, was third with 3:47.00, an American record.

Before the race, "I felt sort of confused," Thorpe said. "It didn't feel like the Olympics, but as soon as I walked in the pool and heard the capacity crowd I realized this was the big moment."

On setting a new world record: "To perform like that in your home country and home town is great."

It took 3:48.91 to reach finals. Canada's two entries were Rick Say, who was 15th in the prelims with 3:52.72 and Mark Johnston, who was 21st with 3:54.99.

WOMEN'S 4x100 FREESTYLE RELAY

The United States put this one away after trailing in second after the first 100, but went on to an easy win as this team of veterans broke the world record with their 3:36.61, bettering a six-year-old time of 3:37.91 set by China in 1994.

The Americans' splits: Amy van Dyken 55.08, Dara Torres 53.51, Courtney Shealy 54.40, and Jenny Thompson 53.62. Thompson has been a member of the last three Olympic-winning relays.

The Netherlands, in sixth after three legs, were moved into second with 3:39.83 by Inge de Bruijn's anchor leg of 53.41, the fastest of the final. Sweden placed third with 3:40.30, their first Olympic medal since 1980, when they were second in this event.

Canada's relay was seventh in 3:42.92, after qualifying with 3:43.82, both bettering the old National record of 3:44.50. In the prelims Marianne Limpert's lead-off leg of 55.87 was another Canadian record.

MEN'S 4x100 FREESTYLE RELAY

It took two world records in one race to beat the Americans, who had never lost this relay in three decades.

Australia led off with Michael Klim in 48.18, a

World and Olympic record for 400 IM winner Yana Klochkova (UKR)

Marco Chiesa

new world record. They were in first throughout the distance with splits of 48.48 for Chris Fydler, 48.71 for Ashley Callus, and 48.30 for Ian Thorpe in the anchor, giving them a final time of 3:13.67.

The Americans led off with Anthony Ervin in 48.89 in second and never caught up. Neil Walker swam in 48.31, Jason Lezak 48.42, and Gary Hall 48.24. Hall had moved into a slight lead with 50 remaining, but could not hold off Thorpe. Their final

time was 3:13.86. Brazil in 3:17.40 edged Germany in 3:17.77 for third. The fastest non-lead-off leg was by Lars Erolander (SWE) in 48.12

The race between Australia and the United States was one of the all-time highlights. On each leg, the Aussie would have the lead, only to have the Americans catch up on the final length. The finish was so close that only the scoreboard told the outcome.

A gracious Gary Hall: "I doff my swimming cap to Ian Thorpe, he swam a great race. But we swam a great race, too.

I've been on a lot of relay teams that have won a lot of races, but this is the best relay team I've ever been on."

Thorpe summed up his day. "This was the best day of my life. This was the best hour of my life. These were the best minutes of my life."

Canada's 4x100 free relay didn't make it to the finals as they placed 13th in the prelims with 3:21.98. It took 3:20.19 to reach finals.

The unexpected world-record Australian 4x100 free relay: Fydler, Thorpe, Callus, and Klim

Marco Chiesa

Three more world records on the second day

Nick J. Thierry

In semi-final action, Pieter van den Hoogenband set a new world record in the 200 freestyle with 1:45.35, and Ian Thorpe in the next semis just missed it with a personal best of 1:45.37.

"I feel a bit weird," van den Hoogenband said. "I wanted to be around 1:46. It was amazing. I think I still have a little bit left to improve in the finals, but Ian Thorpe has a lot more. I don't think this world record will last long. It's going to be a great final."

WOMEN'S 100 BUTTERFLY

Inge de Bruijn (NED) was never challenged as she moved into an early lead, turning in 26.67, and then took a body-length lead, touching in a new world record of 56.61. It was her fourth world record in this event since late May. In 1996, while training halfheartedly with the Dutch team, de Bruijn was removed from the squad. In 1997 she decided to get serious and joined American coach Paul Bergen's squad in the USA. It was the best move she ever made.

"It finally happened," de Bruijn said. "I am so happy. My aim was to be first at the wall, but I wasn't sure where I was at the finish."

Martina Moravcova (SVK), only fourth at the turn (27.17), made the most of the second length with a second place in 57.97. The highly rated Americans Dara Torres and Jenny Thompson disappointed, but Torres held on for the bronze with 58.20. Thompson,

in second at the 50 in 26.79, faded out of contention, finishing a rare fifth. She has been the world leader for the past three years. The individual gold after three Olympics has again eluded Thompson. She has six

relay golds from the three Olympics she's competed in.

"I was going in to win it," Thompson said, "I think I tried a little too hard."

Thompson was done in by her own strategy, "There's nothing more I could have done, I went for it and I was trying too hard."

After an eight-year break, Dara Torres (USA) is competing in her fourth Olympics. She won relay golds at all of them, including one last night. "I am very excited to go home with an individual medal," she said.

Canada's entries didn't make it out of the prelims.

Jennifer Button was 20th in 1:00.83 and Jessica Deglau 21st with 1:00.97. It took 59.12 to reach finals and 59.94 to make into the semis. No Canadian has bettered the minute.

MEN'S 100 BREASTSTROKE

It was a perfect series for Domenico Fioravanti (ITA), leading through the prelims (1:01.32), the semis

(1:00.84), and winning the finals.

Only fifth with 28.91 at the 50 in a very close field, Fioravanti charged the leader Ed Moses (USA) on the second length, moving ahead in the final metres and touching in 1:00.46, an Olympic record. In second was Ed Moses with 1:00.73, with Roman Sloudnov (RUS) third with 1:00.91.

It was a very tight race, with only 30/100ths separating the field at the turn and just over a second separating the field at the finish.

Fioravanti was only fifth at the 1998 Worlds, but won two consecutive European titles since then in this event.

Ed Moses (USA) on his swim: "I felt really good. I wish I swam this field last night in the semis. That would have given me a little more experience for tonight's final...I knew it was going to be a close race. I'm happy to walk away with a silver."

Morgan Knabe (CAN) was 6th after prelims with 1:01.81, and held on to the same spot in the semis with a 1:01.60. In the final missed the podium but improved his time to 1:01.58, a Canadian record, again in sixth.

But Knabe was not happy. He tore off his swim cap and banged his fist against the wall of the pool.

"I got a best time, a new record, but it's the Olympics," said Knabe. "I came here to win and I didn't."

"If I came in second or third, I still wouldn't have been that happy about it. At least, I would have been on the podium and got a little bit of glory.

"Everything was good. I had a good start, a good turn. I was third at the 50. I just didn't have what it takes to come home and I'm going to have to figure out how I'm going to swim the second 50 next time."

Knabe was nursing a sore hand with an ice pack after the race.

WOMEN'S 400 FREESTYLE

Brooke Bennett (USA) was in the lead for the whole distance and swam to her best-ever time of 4:05.80. In 1996, she won the 800 freestyle. This was her first major title in the shorter distance.

Diana Munz (USA) trailed in fourth for three-quarters of the distance, then moved up to catch Claudia Poll (CRC) in the final length. Munz had a time of 4:07.07, with Poll third with 4:07.83.

"I wanted it so bad," Bennett said. "Going into our US Olympic Trials all I could think about was missing it in 1996 and how much it would mean to swim both the 400 and 800 free. Now that I have the gold in the 400 I can't wait for the 800."

"It's fantastic," Munz said. "I'm so excited for the US. I mean it's unbelievable."

Claudia Poll (CRC), in second for most of the race, was edged by Munz in the last 50 for the bronze with 4:07.83.

Inge de Bruijn wins first gold Marco Chiesa

Second gold, second world record for Tom Dolan (USA) Marco Chiesa

Karine Legault (CAN) was 19th in the prelims with 4:15.55. It took 4:10.86 to reach finals.

MEN'S 400 INDIVIDUAL MEDLEY

Tom Dolan (USA), the defending champion from 1996 and the world record holder since 1994, was ready. He blasted through each stroke ahead of record pace and broke the world and Olympic record with 4:11.76.

A comparison of the splits:

1994 58.28 2:02.90 3:14.66 4:12.30

2000 58.02 2:01.12 3:13.06 4:11.76

Erik Vendt (USA) was second with 4:14.23 and Curtis Myden (CAN) third with 4:15.33. Myden also won bronze in 1996.

"That's what I've been dreaming about for six

Repeat bronze for Curtis Myden (CAN)

Marco Chiesa

years," Dolan said. "You always want to win a gold medal and you always want to do well. To break the world and the Olympic record is a real honour. It was really rough last night, to get touched out in the men's 4x100 free relay. That meant a lot to us. As Erik Vendt and I were shaving we said 'we gotta go one-two and turn this meet around.' That's exactly what we did. Hopefully we can keep it going. To go back-to-back 1-2 in consecutive 400s was a huge boost for us."

"It's an unbelievable swim," Erik Vendt said. "It hasn't sunk in yet. The whole Olympic experience has not sunk in. At the 200 when I saw Tom in the lead, I knew it would be a really hard race."

"I'm not disappointed," Myden said. "I still have the 200 IM and a chance to stand a little higher on the podium. I'm sure it will pump up the rest of the Canadian team."

It was an unprecedented accomplishment for Myden, to medal in the same event four years later in his best-ever time.

2000 OLYMPIC GAMES, DAY 3, September 18

One world record and a first-ever gold medal for Romania. The Netherlands Pieter van den Hoogenband became their first male Olympic champion

Nick J. Thierry

WOMEN'S 100 BACKSTROKE

Mai Nakamura (JPN) was in the lead from the start, turning well ahead of the field in 29.17, but paid for it on the home stretch as Diana Mocanu (ROM), swimming a very controlled race, won with 1:00.21. Her 50s were 29.80 and 30.41.

Nakamura, in second with 1:00.55, split 50s of 29.17 and 31.38. Nina Zhivanevskaya (ESP) was third with 1:00.89, her best Olympic showing in her third Olympic appearance.

Mocanu is 16, born 19 JUL 1984. She was second at the European Championships in July with 1:01.54, lives and trains in Braila (ROM), and is coached by Laura Sachelarie. Her winning time was the second-fastest ever and an Olympic record.

"I'm very proud, I have trained so hard for this. Behind this medal is 10 years of hard work," Mocanu said.

Canadians Kelly Stefanyshyn was 10th with 1:02.35 and Michelle Lischinsky was 13th with 1:02.55, her personal best. It took 1:01.86 to reach finals and 1:03.05 to make the semis.

MEN'S 200 FREESTYLE

It was a showdown for the millenium—the Netherlands' Pieter the Great versus the Australian Thorpedo was eagerly anticipated as the match-up between two of the superstars of these Olympics.

They set a very fast pace, ahead of the world record splits, and swam stroke for stroke for about 175 metres when van den Hoogenband took the slightest of leads and Thorpe could not turn on the afterburners.

Pieter van den Hoogenband equalled his world record with his winning time of 1:45.35, with Thorpe in second with 1:45.83.

Massimiliano Rosolino (ITA) was third with a per-

sonal best of 1:46.65 and Josh Davis (USA) was fourth with 1:46.73, an American record.

"I still haven't realized what I have done. It was my big dream," van den Hoogenband said. "I was enjoying every stroke, and it was so nice to swim in Australia against Ian Thorpe and then win. It's amazing."

"I was confident after I broke the world record yesterday. But I knew it would be close. All year he was breaking records and I was at home training, and he motivated me to train harder and now I won."

"I thought the world record would last two minutes but it's now two days already. Today I wanted to get the best out of my body. I wasn't looking at him or thinking about him. I swam my own race and after the last turn I knew I would win the gold. That was a great feeling."

For Thorpe, the entry into the pool and hearing the roar of the crowd made him feel like a gladiator entering the Colosseum.

"Standing on the blocks and hearing that crowd chanting, it was just something so special, something that I don't want to forget. I don't think I will be able to forget it."

Usually Thorpe moves into the lead early in a 200, but he was third after the 50, second after the 100, and tied for first at the 150.

The splits:

| | | | | |
|--------|-------|---------|---------|---------|
| VdH | 24.44 | 50.85 | 1:18.21 | 1:45.35 |
| | | (26.41) | (27.36) | (27.14) |
| Thorpe | 24.48 | 50.90 | 1:18.21 | 1:45.83 |
| | | (26.42) | (27.31) | (27.62) |

"If you put in as much as you can into your race

200 free medallists: Rosolino (ITA) bronze, vdHoogenband (NED) gold, Thorpe (AUS) silver

Marco Chiesa

First gold for backstroker Lenny Krayzelburg (USA)

Marco Chiesa

and into your training," Thorpe said, "You have to be happy with your performance.

"I gave it my best shot and while I was a little disappointed with the time, I wasn't with the result.

"I'm not going to win every race I go in and I'm not going to break a world record every time I swim. That's just not going to happen, and everyone has seen that today.

"It was a great race and it was a real privilege to be able to swim in it. I was a bit flat tonight and hurt quite a lot at the end of the race, but I was beaten by a great athlete."

Canada's Rick Say had a terrific three rounds. After the prelims he was fifth with 1:48.62, after the semis he was still fifth in 1:48.50, both Canadian records. In the final he was ahead of his record pace for more than half of the race but finished seventh with 1:48.76.

It took 1:48.79 to reach the finals and 1:50.11 the semis.

MEN'S 100 BACKSTROKE

A demonstration of speed and technique was given by Lenny Krayzelburg (USA). With a stroke rate faster than anyone in the field, he blasted into the lead, turning in 25.99 and returning in 27.73 for a final time of 53.72, an Olympic record.

Matt Walsh (AUS) was second with 54.07 (26.08), a personal best, and Stev Theloke (GER) third with 54.82.

"It's a big monkey off my back," Krayzelburg said. "I didn't realize how nervous I was going to be. I had a hard time sleeping last night. This is better than anything I've done before. This is the Olympic Games. You are measured in this sport by winning Olympic gold medals and now I'm really glad I got one."

Chris Renaud (CAN) was 11th after the semis with 55.70. Mark Versfeld, a silver medallist at the 1998 Worlds, was 25th in the prelims with 56.50. It took 55.41 to reach finals and 56.19 the semis.

WOMEN'S 100 BREASTSTROKE

Defending Atlanta champion Penny Heyns (RSA)

showed flashes of her old form as she turned first at the 50 in 31.10 and had a half-body lead on the field. But the pace took its toll as Megan Quann (USA), the 16-year-old, caught up and finished first in 1:07.05, an Olympic record.

Her 50s were 31.65 and 35.40. Heyns finished third with 1:07.55 (31.10 and 6.45). Fifteen-year-old Leisel Jones (AUS) was second with 1:07.49 (32.14 and 35.35).

A definite changing of the guard, with two teenagers ahead of 25-year-old Penny Heyns, still the world record holder.

"I've been concentrating on the end of my race," Quann said. "But to tell you the truth I'm not sure what happened. My coach told me to just get up there and 'do what you do best.' I just went out there and raced.

"I think everyone is nervous coming into the biggest meet of their lives, but I was confident.

"Penny Heyns has been pushing me hard when I practice, she's pushing me every day, she's the one on my mind."

Two Canadians reached the semis, with Christin Petelski 10th in 1:09.54 and Rhiannon Leier 11th in 1:09.63, both personal bests. It took 1:09.33 to reach finals and 1:10.47 the semis.

Breaststroke medallists Leisel Jones (AUS), Megan Quann (USA), Penny Heyns (RSA)

Marco Chiesa

Two more world records to bring the total to 11

Nick J. Thierry

Pieter van den Hoogenband (NED) again bettered a world record in only the semi-final of the 100 freestyle with 47.84, bettering a three-day-old mark of 48.18 by Michael Klim (AUS). The favoured Australians bettered their own world record in the 4x200 free relay.

WOMEN'S 200 FREESTYLE

Susie O'Neill (AUS) had little difficulty in winning this event. The first five swimmers were close together for most of the race, with O'Neill in the lead from the 100 (57.68) onward. Her winning time was 1:58.24.

Martina Moravcova (SVK), already a silver medallist in the 100 fly, had the lead on the first length but could not hold off O'Neill. She was closing in towards the finish but fell short by 8/100ths with 1:58.32. Defending champion Claudia Poll (CRC) was third throughout the race and finished with a 1:58.81. Her winning time four years ago was 1:58.16.

Fly queen Susie O'Neill was glad it was over. "That was pretty painful, I'm so relieved I finished." Unlike most swimmers who are stimulated by crowd

noise, "I tried not to listen because they were putting me off. I closed my eyes and tried to swim my own race." O'Neill had to swim the semi-finals of the 200 fly later in the session, where she qualified first for the next day's final.

200 fly winner Tom Malchow (USA)

Marco Chiesa

Lane two is where Moravcova won her two silvers. "Maybe I should qualify in lane one," she said. "After Atlanta I taught myself how to be strong, and it's the key to success. Wanting something too much isn't good. You have to be nervous and ready."

O'Neill was distracted by the hometown cheers

but Poll used it to her advantage. "My coach told me when I hear the cheers, act like it's for me and to use that to lift me."

Canada's entries Jessica Deglau, 2:01.42 in 18th, and Laura Nicholls, 2:02.69 in 23rd, didn't make it out of the prelims. It took 1:59.97 to reach finals and 2:01.31 the semis.

MEN'S 200 BUTTERFLY

It was a perfect conclusion to a successful campaign for Tom Malchow (USA) who bettered the Olympic record at every stage—prelims, semis, and finals with 1:55.35. He already had the world record with

1:55.18 from June this year. He swam a well-paced race just ahead of his record pace (26.21, 55.75, 1:25.27) and took the lead on the final length. Malchow was second four years ago.

Denis Sylantiev (UKR) also swam a well-paced race (25.95, 55.86, 1:25.61), moving into second on the final length with a final time of 1:55.76, his personal best. He was 6th in Atlanta. Justin Norris (AUS) had the lead at 150 but could not finish strongly enough; he was third with 1:56.17, his personal best by a second and a half.

Malchow was confident. "I put in the work, it was just a question of getting it out of my body. Winning the gold is great. I can't think of anything better."

Malchow trains ferociously, even pulling a 10-gallon bucket through the water to increase drag. He was second in 1996 with 1:57.44 and third at the 1998 Worlds with 1:57.26, but was ranked first in 1999 and broke the world record in June with 1:55.18.

Atlanta winner Denis Pankratov showed flashes of his old form when he took the lead for the first half, but the fast pace was too much and he faded to 7th.

Canada's Shamek Pietucha was 18th in the prelims with 1:59.09. Also missing finals was Takashi Yamamoto (JPN), 9th in the semis with 1:57.66, who trained at the Waterloo National Centre.

It took 1:57.24 to reach finals and 1:59.41 the semis.

WOMEN'S 200 INDIVIDUAL MEDLEY

Yana Klochkova (UKR) won a second gold, in the 200 IM, a clearly superior medley specialist who had the lead after backstroke and improved on her previous best by two seconds to win in 2:10.88, an Olympic record. She was not done yet as she planned to finish the competition in the 800 freestyle.

Beatrice Caslaru (ROM) was second with 2:12.57. Her superiority in the breaststroke leg (37.68), the only one to better 38 seconds, moved her into medal

200 free gold medallist Susie O'Neill (AUS)

Marco Chiesa

contention. Cristina Teuscher was only 6th at the 150 but moved ahead of three swimmers to clinch the bronze with 2:13.32.

Atlanta silver medallist Marianne Limpert (CAN) was fourth with 2:13.44, a personal best and a time that would have won four years ago.

"I never expected two golds," Klochkova said. "I would never have dreamt it. I was counting on one for sure. I will be on magazine and newspaper covers at home for sure now."

Joanne Malar placed fifth with 2:13.70 after a fourth in the semis in 2:13.59, her best ever.

Although both Canadians missed the medals, their reactions were entirely different.

Limpert missed bronze by 12/100ths. She was unhappy and said her earlier talk of being happy with a personal best was a lie. "Fourth place feels like last."

Malar said she was satisfied with her showing at the Games. But after three Olympics and expected to be a medal winner in the last two, she was unable to get on the podium at either Games.

"I can go home with my head held high," Malar said. "I feel I got everything out of myself."

Her world rankings last year of first in the 200 IM and second in the 400 IM proved misleading because the medal winners in Sydney went much faster.

MEN'S 4X200 FREE RELAY

It was a forgone conclusion that Australia had the lock on the gold. The only question was by how much would they beat their own world record.

Ian Thorpe led off with 1:46.03, obviously tired from the heroics of the previous three days, and Michael Klim followed with a solid 1:46.40. Then Todd Pearson with 1:47.36 and William Kirby with 1:47.26 clinched it with a 10-metre margin over the field and a world-record time of 7:07.05.

The battle was for second. The United States got the silver with 7:12.64. The Netherlands, anchored by Pieter van den Hoogenband's 1:44.88, the fastest leg ever, moved from fifth to third with a final time of 7:12.70. Italy was fourth with 7:12.91. Great Britain was third with one swimmer to go but finished fifth with 7:12.98. Only 3/10ths of a second separated the four teams.

As good as the Aussies swam this night, they potentially could have been much better with a healthy Daniel Kowalski and Grant Hackett.

Canada placed seventh with 7:21.92, after their prelim time of 7:21.45 set a Canadian record.

another world record bringing the total to 12. The biggest upset in the women's 200 butterfly. USA steadily winning the medals race with 8-5-4 FOR 17, with Australia trailing with 4-5-2 for 11

Nick J. Thierry

In the second semi-final of the women's 100 freestyle, Inge de Bruijn bettered her own world record by 3/100ths to 53.77. "I'm feeling great every time I go out there. I feel really strong," de Bruijn said. On the final: "I don't know what will happen. I am just getting out there and having fun. I am not a nervous wreck anymore."

MEN'S 200 BREASTSTROKE

Never having won an Olympic gold, Italy could now relish in its second from Domenico Fioravanti, already the winner for the 100 breaststroke. He had the lead from the second length (30.50, 1:04.15, 1:37.35) for a final time of 2:10.87, an Olympic record and the second-fastest all time. It was his best by four seconds.

To sweeten the evening, Davide Rummolo (ITA) won the bronze with 2:12.73 with a fantastic last 50, moving from fifth to third, just ahead of Regan Harrison (AUS) with 2:12.88.

"I never expected to make the finals," Rummolo said. "I was tired from the early rounds. But tonight I really felt without limits."

Terence Parkin (RSA), well back for the first half in fourth, came on strong in the final length to move into second with 2:12.50. Parkin is a remarkable athlete who is hearing impaired since birth and can't hear the roar of the crowds and communicates by sign language. He considers all this an advantage as he can focus on the job to be done without distractions.

"It was good. I felt comfortable," Parkin explained through his coach. "I really went for it in the last 50 and swam hard. This should motivate our team."

The lone Canadian entry, Morgan Knabe, was 10th in the semis with a 2:14.01, a personal best. He set a blistering pace but faded on the second half. His 50s were 29.76, 33.70, 34.56, and 35.99. It took 2:13.87 to reach finals and 2:15.70 the semis.

WOMEN'S 200 BUTTERFLY

If there ever was a sure thing it was Susie O'Neill in the 200 butterfly. But an inspired Misty Hyman (USA) set a torrid pace (28.38, 59.91, 1:32.44) to steal the race with 2:05.88, an Olympic and American record. O'Neill seemed sluggish and about a body-length behind at the 100 and 150 (28.75, 1:00.68, 1:33.04) and fell short of closing the gap with 2:06.58.

Ironically Hyman was on the brink of retirement. "To come this far since May is really a credit to my support people. There are so many who have made this possible.

"I had to look at the scoreboard three times!" On how she swam the race: "When I swim from the heart, I swim my best race. My coach Richard Quick gave me belief in my

Misty Hyman (USA) upset winner in 200 butterfly

Marco Chiesa

Domenico Fioravanti (ITA) swept both men's breaststrokes

Marco Chiesa

potential and that's what I stood up on the blocks with. My goal was the gold."

On the decision to ban the unlimited underwater kick: "It challenged me to improve my stroke and made me a better swimmer."

"I kept my race plan," O'Neill said. "I did see her ahead. I was a bit more excited last night when I won the 200 freestyle."

Petria Thomas (AUS) was third with 2:07.12. "I'm just glad to be here. I have to be happy as it was my best ever." She was second in Atlanta with 2:09.82. That has been the story of these Olympics—faster times result in a lower position than four years ago.

Canadians Jennifer Button was 17th after prelims with 2:11.74 and Jessica Deglau (a finalist in 1996) was 22nd with 2:12.86. It took 2:09.89 to reach finals and 2:11.62 the semis.

MEN'S 100 FREESTYLE

Michael Klim (AUS) was on world-record pace (23.12) at the 50 but then tired and faded to fourth. In a well-controlled swim, Pieter van den Hoogenband won with a 48.30, to pick up his second gold and third medal. With more yet to come.

"I thought I would be faster tonight," van den Hoogenband said. "But I won the Olympics. I'm so happy. This is the event I really trained for as I thought I would do my best in it."

Early leader Klim: "I went out hard but my legs gave way in the second half. I gave it my best shot. It was good to be part of this great race."

Alexander Popov was sixth at the 50 with 23.44 and almost caught up but fell short, still good enough for second with 48.69.

After winning the silver, Popov said at the press conference: "I've already got many medals. I can't

win everything. I have to share. I did my step in setting world records and now Pieter took another. We are moving forward. You take each race as it is, you don't expect anything. You just get on the blocks and off the block as fast as you can. It's a bit dramatic that Michael Klim, after his world record on Saturday, didn't make it to the podium. He is a great swimmer, but that's why they call it the Olympic Games."

Asked about the 50 freestyle, Pieter van den Hoogenband said, "Popov will win it. I maybe the best at these Games but what Alex did in the past makes him a legend—winning a medal in his third Olympics. Next week I want to party and enjoy myself, then go home and share this with my family."

On drug testing: "I had to pee every day, and yesterday I had to pee twice."

On how he started swimming: "I always wanted to do other sports, especially soccer. But I wasn't good at it. I didn't want to swim even though I was told I was talented. My mother taught swimming and every day I went and now I have two

gold medals."

Gary Hall (USA), in third with 48.73, was asked if Pieter is the swimmer of the Olympics: "I don't know there was one. I think both Popov and van den Hoogenband have proven themselves; their performances are something to marvel at."

Canadians Yannick Lupien was 26th with 50.62 and Craig Hutchison was 29th with 50.90. It took 49.55 to reach finals and 49.83 the semis.

WOMEN'S 4X200 FREESTYLE RELAY

The Americans were battling Australia throughout, with anchor Jenny Thompson's final leg of 1:59.35 giving the USA a body-length advantage and an Olympic record. Thompson picked up her seventh relay gold in three Olympics.

Australia finished second with 7:58.52, and Germany third with 7:58.64, with anchor Kerstin Kielgass having the fastest leg in 1:57.90.

Canada was fifth with 8:02.65, a three-second improvement of their previous national record, with Marianne Limpert leading off in 1:59.85 to become the first Canadian under two minutes.

"We have been together as a team since the 1993 Pan Pacs in Kobe. It is sad to think that this was probably our last race together," lead-off Marianne Limpert said. "At least we go out with a record."

Pieter van den Hoogenband (NED) wins 100 free

Marco Chiesa

Italy won its third gold, the Netherlands its fourth, the United States its ninth, and Hungary its first

Nick J. Thierry

On the sixth day of Olympic swimming, there were no world records but three Olympic records did fall. The USA led in the medals race to this point with 9-8-8 for a total of 25.

WOMEN'S 200 BREASTSTROKE

The race was close for the whole distance. The early leader, Sarah Poewe (RSA), was first at the 50 (32.97) and second at the 100 (1:10.53), with four others also around 1:10. Kristy Kowal had the lead after the 100 (1:10.21) and 150 (1:47.13), but Agnes Kovacs (HUN) surged to the lead with 15 metres remaining and touched first in 2:24.35. (Kovacs was third in 1996 with 2:26.5.)

A very emotional Kovacs had difficulty holding back tears of joy after her winning effort. "I'm very happy, I can't believe it. I was racing against myself and concentrating on my own performance. My mother is here and it's given me a lot of confidence. I will have a rest as I've been training a long time without a break. I will probably go to America to university."

Kowal placed second with 2:24.56. The next four all finished in 2:25s, with Amanda Beard (USA) third with 2:25.35. (She was second in Atlanta with 2:25.75). Missing a medal by 1/100ths of a second, Hui Qi (CHN) touched with 2:25.36.

"I just wanted to come here and get a medal,"

Kowal said. "This makes up for all the disappointments I have had in my career." Swimming from lane eight might have been an advantage. "I just went out for it. I had to do it like that. I really appreciate this medal more than the one in Atlanta."

Canada's Christin Petelski, a finalist in 1996, improved her best to 2:29.11 for 14th in the prelims and 13th in the semis. It took 2:26.62 to reach finals and 2:29.45 the semis.

Missing from the finals, Penny Heyns (RSA) finished 20th in 2:30.17, seven seconds off her 1999 world record. She promptly announced her retirement from the sport.

MEN'S 200 BACKSTROKE

Nervous and emotionally exhausted, Lenny Krayzelburg (USA) was in the lead (27.32, 56.59, 1:26.05) for the distance, winning with an Olympic record of 1:56.76.

"I'm really excited but really exhausted," Krayzelburg said. "It's a very emotional experience. I want to thank my parents (in the stand tonight). They're part of the reason why I am here today.

Gold for Agnes Kovacs (HUN) in the 200 breaststroke

Marco Chiesa

was third with 1:57.59, a huge improvement for someone who only bettered 2 minutes last May.

"It's such a relief it's over," Peirsol said. "I got the silver but I still get to the podium for the US national anthem. Lenny knows that I'm getting to the point where I'm becoming more of a threat to him and I think he knows it."

"It's pretty amazing," Welsh said. "Coming out of the last turn I knew where everyone was and I knew second would be between me and Peirsol. I expected to do well but not this well. To actually achieve it is unbelievable."

Two Canadians swam in this event: Dustin Hersee, the winner of the Trials, was 20th with 2:01.34 and Chris Renaud, who made it to the semis (11th in the prelims with 2:00.51) finished 13th with 2:01.19. It took 1:59.78 to reach finals and 2:01.08 the semis.

WOMEN'S 100 FREESTYLE

After her world record the previous day, there were no real challengers and Inge de Bruijn (NED) easily won with 53.82 (25.87). Swimming with straight arm recovery was not pretty but it was very effective.

"It feels great to be called 'Queen of Swimming'

100 free medallists: Alshammar (SWE) silver, de Bruijn (NED) gold, and tied Thompson and Torres (USA) bronze

Marco Chiesa

here in Australia. It's a really great thing to be appreciated here, not just only in the Netherlands. I think it's good that Europeans are winning so many races, that the meet isn't just between the Americans and Australians. They have underestimated what the Europeans can do.

"My big advantage is that I've been working on my second 50. Three years ago I would go out really hard and then be totally dead at the finish. It is really about the last few metres, and I really focus on that and to bring it back home. The most important thing for me is not to die at the end, at

least not as much as the others; to hold my stroke and keep kicking fast."

Therese Alshammar (SWE) only qualified in seventh, but the lane one position gave her the opportunity to move up on the rest of the field (25.91) to finish second with 54.33, her best ever.

In the ultimate irony, Dara Torres (USA) and Jenny Thompson (USA), who train under the same coach and have been rivals most of their careers (and especially this past year), ended in a tie in 54.43 for third. This was Thompson's only individual medal but she already had two relay golds.

"Our coach separated us last December," Torres said. "Every workout was becoming like an Olympic final. And so it's kind of ironic that we touched the wall with the same time."

Thompson commented on not having an individual gold: "I think it's time for me to stop looking at what I don't have and look at what I do have. I have more medals than any other American athlete. I'm proud of what I've done."

Laura Nicholls was the only Canadian to swim this event. She made it to the semis in 13th with 55.94 (equalling her best). Marianne Limpert was entered but scratched. It took 55.62 to reach finals and 56.33 the semis.

MEN'S 200 INDIVIDUAL MEDLEY

During the first 100 it looked like Atlanta winner Attila Czene might do it again as he was in the lead from lane one (26.22, 56.32), but after the breaststroke he was fourth with 2:01.16.

Massimiliano Rosolino (ITA) took the lead on

Gold for Rosolino (ITA) in 200 IM

Marco Chiesa

the breaststroke leg and won with 1:58.98 (26.59, 57.36, 1:30.88), a new Olympic record. It was Rosolino's third individual medal and the 24th Italian national record.

"I was happy to get to this event," Rosolino said. "It was my dream to win a big race and jump up and down. Of course I didn't want to overdo it and look stupid, but I'm glad I did it."

"We are writing Italian swimming history; three gold medals are special. Swimmers in Italy are not famous as in America or Australia. Everyone is going crazy at home." Asked about drugs in sport, "You can come and check

me, my main drug is spaghetti parmigiano.

"I'll be in Athens. I'm certainly not sick of swimming. I've only been doing twice-a-day workouts for three years."

Tom Dolan (USA), who was in second throughout (26.37, 56.40, 1:31.17), got the silver with 1:59.77, a personal best and American record.

"I'm not disappointed with the silver," Dolan said. "I'm a 400 IM swimmer and the 200 is not a super natural event for me. I'm going to take a well-deserved vacation for while."

In third with another personal best was Tom Wilkens (USA) with 2:00.87. "It means the world to me," Wilkens said about his bronze medal. "I've never been happy with third before, but now I couldn't be happier. I plan to continue swimming and hope to get down to Dolan's record in the 400 IM. I also want to travel more, do the World Cup, run some clinics, and give a little back to the sport."

Curtis Myden missed the finals after finishing 10th in the semis with 2:01.99. It took 2:01.81 to make the finals. Brian Johns, the second Canadian entry, was 15th in the semis with 2:02.92. It took 2:01.81 to reach finals and 2:03.33 the semis.

Myden said after the event that these would be his final Olympics and he plans to shut down his career as a competitive swimmer.

"It is too bad to end it like this, but when I look back on these Games, I will think of the bronze I won in the 400 IM. I'm going to take a look at the big picture." Medical school is hopefully part of the bigger picture for Myden.

FUNDING CONTROVERSY

THERE HAS TO BE A BETTER WAY

Nick J. Thierry

Marianne Limpert finished fourth in the 200 individual medley in a time faster than four years ago, when she won the silver.

She criticized harshly Canada's commitment to Olympic athletes. "If the government put some money into sport, then it might give us more confidence that they think we are worthwhile and behind us when we get up on the block," she said.

The federal government increased funding to amateur sport by \$12 million to \$62 million, well down from the \$82 million a decade ago.

Joanne Malar also waded into the controversy that Canadian Olympic athletes are underfunded. Malar, considered a strong medal contender in Sydney, finished seventh in the 400 IM and fifth in the 200 IM.

"To even make the Olympic final is great," Malar said. "People expect gold medals from us but they have to put the money into it to get those Olympic medallists and to keep us in the pool."

"A lot of us are going to retire because another four years to get bad press when you come fifth in the world isn't worth it."

It is odd that Limpert and Malar are part of this controversy as they certainly have done well in endorsements and sponsorships. Malar was reported to have earned six figures during the past year.

For almost 30 years we've had government funding of amateur sport and it keeps athletes in virtual poverty, but there have been many reports on what to do (all gathering dust on shelves), a few of which are:

- Report of the Task Force on Sports for Canadians (1969)
- Toward a National Policy on Amateur Sport (The Green Paper 1977)
- A response to the Green Paper by CASA (1978)
- Towards a National Policy on Fitness and Recreation (1979)
- Going for Number One, CASA (1979)
- Toward 2000: Building Canada's Sport System (1988)

Paper everywhere, paper plans, bureaucrats' dreams. For years we had a National Sport Centre (a building) where, strangely, no athletes could be found, only administrators. Of the little funding by government to sport, more than half never left Ottawa. Surely there is a better way.

World record for de Bruijn in the 50 free semifinal, the 13th of the Games. Tie for first in the men's 50 free.

Nick J. Thierry

WOMEN'S 200 BACKSTROKE

After a slow start—only 7th at the first 50—Diana Mocanu (ROM) moved up into contention, turning second at the 100, and moving up to the lead with a terrific second 100. She had over two body lengths at the finish to win her second backstroke gold with 2:08.16.

Her splits:

| | | | |
|-------|---------|---------|---------|
| 31.56 | 1:03.67 | 1:36.21 | 2:08.16 |
| | (32.11) | (32.54) | (31.95) |

Mocanu said, "I have worked very hard. All I wanted was to know I did the best I could do. This was an excellent performance."

In second with her best-ever time of 2:10.25, Roxana Maracineanu (FRA) gave the French a much-needed boost with their first medal. She was in the lead for the first half with 1:03.49 but could not respond to Mocanu's strong finish.

"I'm very happy to have won a medal. It was more difficult here at the Olympics than I expected. It was a lot tougher than at the World Championships (winner in 1998)."

On not getting the gold, Maracineanu said, "It means I was beaten and I'm not fond of that. I'm not happy with second but Mocanu was the stronger swimmer today. I could not have done what she did

Diana Mocanu (ROM) won gold in 100-200 back Marco Chiesa

tonight, she was too strong. I have been training for this for the past four years. But for years I have been dreaming of winning a medal. I can't complain."

On her future, she commented, "I don't know what the future will bring, but having taken part in the Games I have learned something: this is what everyone dreams of. It is the end of the Games for me and that was my goal for the past four years. Right now I don't feel like doing again what I have done in the past."

There was a hard-fought battle for third place among two Japanese swimmers, with Miki Nakao (2:11.05) just ahead of Tomoko Hagiwara (2:11.21).

"When I missed qualifying for the Asian Games," Nakao said, "I had to watch it on television and this motivated me to be at the Olympics. I didn't want to watch it on television. Now that I have the bronze I think I am mentally stronger. That is how I made it to the Olympics. Until recently I couldn't believe in myself, there was doubt as to whether I could do it, but this time I had mental strength. I heard the crowd and it helped me. I knew I could win a medal."

Kelly Stefanyshyn was a finalist after placing 13th in the prelims with 2:14.28, 8th in the semis with 2:13.39, and 8th in the final with 2:14.57. Realistically, a spot in an Olympic final was her goal—mission accomplished. She missed one earlier in the 100 backstroke. It took 2:13.89 to reach finals and 2:15.10 the semis.

WOMEN'S 800 FREESTYLE

Nothing can equal the pleasure of winning the gold in the same event for the second time and with an Olympic record as an added sweetener. That is exactly what Brooke Bennett (USA) did. She was at her best and actually on world record pace until the 400 (4:07.83), but with a two-body-length lead, she fell off the pace just a little bit to finish in 8:19.67, the first time under 8:20 and a four-second improvement of

her previous best.

"It was just so overwhelming," Bennett said. "Coming here, winning two golds, and breaking an Olympic record. It was my goal coming here to break 8:20; after my 400 (4:05.80) I thought I could do it. I think the world records are within reach and they will be my goals for the rest of my career, and I'm not planning to leave anytime soon."

After winning two gold in the 200-400 individual medley, Yana Klochkova (UKR) swam the 800 free and, surprise, she won the silver in 8:22.66 with a huge 15-second drop from her previous best in May. After her third medal, "I'm very happy, as I wanted to

Third career gold for Brooke Bennett in two Olympics

Marco Chiesa

win a medal."

Kaitlin Sandeno (USA) finished in third with 8:24.29, her personal best by four seconds and a 10-second drop since a year ago. "It's about time," she said. "I'm really excited right now. It's unbelievable. I think Brooke Bennett is another 'Queen of the Games' I don't think you can only have one; you can have two."

Canadian Karine Legault was 16th in the prelims in 8:43.56. It took 8:33.23 to reach finals.

MEN'S 100 BUTTERFLY

The field was truly awesome, including 6 of the 10 fastest swimmers in history. The pressure on the Australian duo of Michael Klim, the world record holder, and Geoff Huegill, who set the Olympic record in the semis, as well as on Lars Frolander (SWE) had to be terrific.

Klim missed an individual medal in the 100 free, even though he broke the world record earlier when leading off the 4x100 free relay. This was his chance. Huegill had beaten Klim at the Australian Trials in May and wanted the gold. As is his usual style, Klim attacked from the start turning first in 24.10, but could not hold off the fast-charging Frolander who paced the race better and finished stronger to win in

Two relay world records bring the total to 15, the highest total since 1976

Nick J. Thierry

WOMEN'S 50 FREESTYLE

It was a sweep of the freestyle sprints for Inge de Bruijn (NED) as she toughed it out towards the finish, winning with 24.32. Her time was slower than the previous day's semi-final world record of 24.13. She was in a close battle with Therese Alshammar (SWE), in second with 24.51, and Dara Torres (USA) with 24.63.

"I'm ecstatic about winning three golds," Inge de Bruijn said. "A lot of people predicted I would win three, but actually doing it is a lot harder. And in order to do it, everything has to be right. After every race I had to recharge myself. The 50 free, being the last event, was the most difficult. I know that everyone in Holland is very excited. I also want to enjoy the excitement in Holland."

The two Canadian entries were 22nd Nadine Rolland 26.04, and 38th Jenna Gresdal in 26.79. It took 25.49 to reach finals and 25.96 the semis.

MEN'S 1500 FREESTYLE

Finally, an Australian sweep of an event they were expected to dominate and an event they have owned for the past decade. (AUS was 1-2 in 1992, 1996, and now in 2000). Grant Hackett (AUS) had a terrible week. He missed a medal in the 400 free and was left off the final 4x200 free that set a world record. He did help qualify the relay in the prelims and will get a gold for doing so. Today he was more than ready to make up for the ordeal of the past week. He was in the lead throughout the distance for about a body length after the 200-400 and increased it to three at the finish. His 14:48.33 gave him the gold. It was just off his best of 14:45.60 from last year.

His splits: 200 1:53.66 400 3:52.39 800 7:51.74

"I had belief in myself the whole time," Hackett said. "I put up with a lot of criticism after the 200 and 400 free swims from the press. But I just had to block out everybody else and just focus on my own thoughts. I had a lot of anger within me about what people were saying. It just raised my aggression."

The whole country was watching. "Swimming is unbelievable here in Australia. This race arouses huge interest and because I had a bad week it just

52.00, with Klim second in 52.18 and Huegill third in 52.88.

"No one was that fast tonight," Frolander said. "But I knew it would be really tough. Klim and Huegill are really great swimmers."

For Klim, "The competition was very tough. You always have to be prepared for some unexpected results. I don't think it was a fantastic swim. I think we both know we could have done better. But give Frolander credit. We should have grabbed that race, but we let it get away from us."

Michael Mintenko continued in record form: Third after the prelims with 52.90, fifth after the semis in 53.00, and fifth in the final in 52.58, a Canadian record.

"I've been waiting for 17 years to swim in a race like this," Mintenko said. "The noise and pressure don't rattle me. I try to soak up the energy from the crowd."

"The Olympics became a goal after I swam at NCAAs where the pressure was equally intense. I've gone up against a lot of these guys before, so this is nothing new."

"It is the Olympics, so that is new, but racing is the same—just get to the wall first."

At age 24, Mintenko is a rookie, at his first Olympics, and only in his third year of international swimming. Second Canadian entry Shamek Pietucha was 22nd in the prelims with 54.14. It took 53.32 to reach finals and 53.81 the semis.

MEN'S 50 FREESTYLE

The final showdown. The old champion and world record holder against the challengers. Alexander Popov (URS) tried to pull out one more victory with the challengers completely surrounding him.

In what was totally unexpected, rookie Anthony Erwin (USA) and Atlanta silver medallist Gary Hall

(USA) tied for the gold with 21.98, a first in men's Olympic swimming. Erwin had the best start and just took off with Hall in the next lane moving up at the finish. Pieter van den Hoogenband didn't expect to win, and touched for third with 22.03. It was his third individual medal.

And Alexander Popov finished an unusual fifth with 22.24; not quite what was expected of the world record holder.

For Hall this was an especially sweet moment. "I see this as just a great triumph of the USA in swimming. It just shows we're still the best. It's fitting that we tied as we spend every day this summer training together, and we pushed each other to the limit."

He praised the Australians. "I raise my cap to the Australian team. They are fantastic. We have gone out and dominated the water, but they should be very proud of their accomplishments." On Popov, Hall said, "He's been the guy to beat for a long time and it's very satisfying to do it today, because he's such a great swimmer."

On his difficulties, Hall said "The diabetes was a real factor in my life, not just my swimming career. I never expected to win the Olympics and it's a tribute to how one can live their lives thanks to modern medicine."

For Anthony Erwin, his biggest praise was for his coach. "Mike Bottom's strength comes from knowing who his swimmers are. He can motivate us to do our best. I never expected this at the start of the season, now that I'm here I feel on top of the mountain."

There was a Canadian foul-up as the wrong swimmer was mistakenly entered, and attempts to correct the situation proved fruitless as FINA did not allow any changes. Craig Hutchison lined up to swim instead of Trials winner Yannick Lupien. He then false-started out of the race. It took 22.36 to reach finals and 22.80 the semis.

100 fly medallists: Geoff Huegill (AUS) bronze, Lars Frolander (SWE) gold, Michael Klim (AUS) silver

Marco Chiesa

raised the interest level even more. That made it special.”

On his game plan: “I was prepared to not win. I knew that I had more speed than the other guys. I guess it was just my lucky day. As I get older (20) I have to do a lot more resting. Every time I got into the water last week I felt more lethargic.

“I knew I was very fit. I mean I trained my butt off for this event. I was questioning myself after the 200 and 400 freestyles but the 1500 is my event. I said to myself ‘I don’t care if I’m half dead, I’m going to hang on and do a sprint finish.’ Other than a race I had when I was 16, this is the toughest race I think I have ever been in.”

After his difficulties this week, did he seek any help? “I did not speak to any psychologists. I knew within myself what I had to do. After the 4x200 free relay I bawled my eyes out; I’m not afraid to admit that. I realized I had to go through a process of letting that out. I was focused on getting better and improving myself.”

Kieren Perkins (AUS), winner of the 1992 and 1996 golds, swam faster than in Atlanta for second with 14:53.59.

His splits: 200 1:55.24 400 3:54.37 800 7:53.57

“I’m just exhausted. I’ve given it my best shot,” Perkins said. “I’m a competitor. Of course I wanted to win, but this was definitely a good result. If anyone had to beat me it had better be an Australian. After the prelims I was concerned about my recovery. But I was 5 seconds faster today and I know there was nothing more to extract for myself.”

About this competition: “No matter what I’ve done during my career, the last 8 days will never come close to it. Nothing beats this venue.”

The bronze went to fast-improving Chris Thompson (USA) with 14:56.81, an American record and a 15-second improvement over his previous best. He was in a close battle with Alexei Filipets (RUS), who did a 14:56.88.

Canadian record holder Andrew Hurd was 23rd in the prelims with 15:30.98 (well off his best of 15:12.70) and Tim Peterson 27th with 15:34.94. It took a 15:12.30 to make the finals.

WOMEN’S 4x100 MEDLEY RELAY

The American women, in the lead from the start, shattered the six-year-old world record with 3:58.30. It was the first-ever sub-four-minute relay. Barbara Bedford took the lead in backstroke with 1:01.39, then Megan Quann swam the breaststroke in 1:06.29, the fastest ever, Jenny Thompson swam the fly in 57.25, and Dara Torres anchored with 53.37.

Dara Torres collected her fifth medal, the most by anyone in the pool—three individual bronze and two relay golds.

Jenny Thompson added another relay gold to

1500 free medallists Chris Thompson (USA) bronze, Grant Hackett (AUS) gold, Kieren Perkins (AUS) silver Marco Chiesa

bring the total to an unprecedented 8 and a career total, including individual events, of 10 over three Olympics, moving her third on the all-time most medals category behind Mark Spitz and Matt Biondi, also from the USA.

“I’ve been thinking a lot this week about perseverance,” Thompson said. “I was hoping to come here and do my best, but I feel I fell short of that. These relays mean so much to me and to finish on this note is great. I’ve done a lot in my career and missing an individual gold medal is not a big deal. I’ve had a wonderful career and I’m at peace with how things happened. I’m going to medical school next year, so I don’t know how much time I will have for swimming.”

The Australians in second did not really challenge the Americans and finished about two body lengths behind in 4:01.59, their best ever and under the old world record. It may be Susan O’Neill’s last swim and she got a magnificent send-off as her teammates carried her around the pool after the medal ceremony. This was her 9th Olympic medal in three Olympics, exceeding legendary Australian Dawn Fraser’s 8 from the 1956-1960-1964 Games.

“I’ve been to three Olympics,” O’Neill said, “and still can’t believe what has happened to me. This last swim was great fun, especially as it was a relay.”

On her future: “I want to keep my options open. I want to give myself a couple of months and see what happens. I can definitely say I won’t be at another Olympics. And if I decide to continue it will be in the 50 free. I don’t want to do the training I’ve been doing. I just want to be able to stay up late and have some fun.”

Japan won the bronze in 4:04.16, ending a week of frustration for them. Breaststroker Hisayoshi Tanaka expressed their feelings best: “I never thought I’d get an Olympic medal. I haven’t done well in my individual events and I felt bad about that. The support from the Japanese crowd cheering for us really helped and I thank you very much.”

Backstroker Mai Nakamura said, “This means more than any individual event. I won a medal in 1996 but this one is so special.”

Canada was 6th in the final with a national record of 4:07.55.

MEN’S 4X100 MEDLEY RELAY

The expected duel between the Americans and Australia never materialized. The USA was in the lead throughout when Lenny Krayzelburg gave them the lead in 53.87, and Ed Moses moved them further ahead with his 59.84, the first sub-minute breaststroke relay leg. Ian Crocker on fly and Gary Hall on free consolidated their win with 3:33.78, over a second faster than the old record from 1996.

It was a solid team effort. “At US Trials I was looking towards 2004,” flyer Ian Crocker, 17, said, “Looking for experience. Once I made the team, the next goal was to get on the relay and I knew there was no way of losing with these guys here.”

Another viewpoint from Gary Hall: “When you’re faced with tough opponents, it forces you to work for it. We were able to use the threat of being dethroned as the best swimming nation to step up and reach another level.”

Canada finished 6th in the final with 3:39.88.

LESS THAN 30% OF SWIMMERS MANAGE TO SWIM A PERSONAL-BEST TIME

Wayne Goldsmith

The Olympic Games were an exciting swimming experience for all concerned. Athletes, coaches, and swim fans alike loved the competition and loved to see the champions doing well.

Now that the fanfare has died down and the hype and the chants have faded, what can the average swimmer and coach learn from the Sydney 2000 Olympic swimming competition?

First, answer this swimming trivia question:

What do Susie O'Neill, Kieren Perkins, Joanne Malar, Ian Thorpe, Michael Klim, Alex Popov, Ed Moses, Jr., Hayley Lewis, Jenny Thompson, Petria Thomas, Penny Heyns, and Geoff Huegill have in common?

They are all Olympians. True. They are all great competitors. Definitely. They are all champion swimmers. Yes.

Answer: They were all defeated in Sydney.

As great as they are and as talented as they may be, these outstanding swimmers were defeated in the Sydney 2000 Games.

Generally speaking, less than 30% of swimmers competing at an Olympic Games manage to swim a personal-best time!

Why? Why is it that some of the most talented athletes in the world are unable to swim fast at the Olympic Games? There are many possible reasons for athletes not being able to do their best at a major competition. Let's consider a few.

1. Recovery

Winning at the Olympics is not about doing one fast swim and picking up a medal. It is about racing to the best of your ability, RECOVERING completely, then going faster in the semi final, RECOVERING completely, and going faster again in the final.

Many swimmers, particularly those who swam personal bests in the heats and semis, were unable to get back up and match those times in the final.

An analysis of the Olympic results indicates that successful swimmers were able to recover well between events and between heats, semis, and finals, and do their best times when it really mattered. Over 94% of swimmers who won medals did their best times in the final.

PRACTICAL LESSON: We know that long, slow swimming improves your ability to recover. The increased blood flow to the muscles, improved lung function and changes in blood chemistry all have an impact on a swimmer's ability to recover from hard training and racing.

Racing fast is only one part of the equation. Quite often it's not the FASTEST swimmer who wins, it's the BEST-RECOVERED swimmer.

Also we believe that recovery can be improved by:

- Light massage after racing
- Warming down correctly
- Eating light foods like fruits after racing
- Drinking water or weak sports drink after racing
- Getting plenty of rest between events (including quality sleep)

2. Racing the Race, Not Just One Person

Each race is different. Great athletes develop the skills and abilities to match every competitive situation they encounter in their swimming career.

Often the press builds up the hype around a particular race so that people start believing there are only two people in it. In Sydney we saw Australia's Susie O'Neill and Petria Thomas outraced by an American swimmer (Misty Hyman) for the gold medal. Michael Klim and Geoff Huegill also were defeated despite the generally held belief that it was a two-man match race.

PRACTICAL LESSON: Swim your own race. There are eight swimmers in a final. Each one is capable of swimming the "race of their life" and winning from anywhere. Who would have thought that Kieren Perkins could have won in Atlanta from Lane 8? Every swimmer in a final is dangerous and can cause an upset.

That so many great "unbeatable" swimmers get defeated at Olympic level is a lesson for all young swimmers—EVERYONE IS BEATABLE. The biggest kid on your team, the fastest kid at your school, the tallest swimmer in your age group—all of them can be defeated. The only person who can't win is the person who believes that the opposition can't lose!

3. Race Pacing—A Vital Skill

Racing hard takes a lot of energy. And the faster you race, the longer it takes to recover. This is even tougher in the heats-semis-finals format where athletes need to be at or near their best three times in 36 hours.

Intelligent swimmers swim intelligent races.

In tough events (and at international level it's all tough), swimmers need to find the balance between swimming fast enough to get to the next round, yet not over-race by swimming too fast and leaving themselves fatigued for their next swim.

In Sydney, it was noticeable that the swimmers who won finals were those who carefully and intelligently progressed through the rounds with a steady

improvement in speed and performance at each swim.

There are exceptionally talented swimmers who can break world records in heats, semis, and finals, and get faster in each round of competition.

For most "mortals," the three-round format is as much about recovery and survival as it is about fast swimming.

PRACTICAL LESSON: Practise accurate pacing skills as a priority. Good swimmers aim to be able to swim 100 metres within 0.5 of a second of their target, goal, or predicted time. This starts with accurate and precise pacing during workouts.

Plan your race strategy and target race time with your coach and hold that pace, regardless of the temptation to go faster and win the early rounds.

Not convinced?

Here's a good question: List the names of every swimmer who won a heat swim at the Sydney Olympics. How many did you get? Now list the names of every swimmer who won an Olympic gold medal in Sydney. Which list is longer?

No one remembers who did the heat swim in a personal best, UNLESS they also won the final.

4. Psychological Stress

Many athletes cannot do their best times at the Olympics because of the unique pressures of the competition environment. There are 4 billion people watching, large crowds, media, living quarters in a village. You usually compete on the other side of the world, with different food, climate, and languages. It's tough. Is there anything that can prepare an athlete for this challenge?

One of the most unforgettable scenes from the Olympic swimming competition was the woman's 200 fly. As the competitors were introduced and the camera moved in for facial close-ups, the two Australian swimmers appeared tense, tight, and stressed. Considering the hype, the build-up and pressure of the home Olympics and the expectation of a home crowd, the tension was understandable.

Then the camera moved in on Misty Hyman. She was smiling. She was relaxed. She was happy. She was enjoying the moment. She couldn't wait to get into the water and compete.

In many ways, the race was already over.

PRACTICAL LESSON: Each swimmer handles pressure differently. You can see it in their pre-race routine. Some sit quietly, head under a towel. Some sit and talk with friends. Some listen to music. Some read. Some walk, skip, jump, and keep moving.

Regardless of what you do to handle pressure, it is important that you learn what it is that gets you through the tough times well before the meet.

The Olympics are the toughest of all sporting arenas. The stress of Olympic competition can place unbearable pressures on athletes and coaches. However, while nothing can guarantee success, it is possible to increase the likelihood of success by careful planning and understanding the demands of the competitive arena.

CAN IT REALLY BE THE ROPE CLIMBING?

Karin Helmstaedt

The Queen of the Pool in Sydney would have made a great mate for Tarzan. That's because Inge de Bruijn can climb ropes in succession using only her arms. That comes in handy in the jungle, but also, it turns out, in an Olympic 100 freestyle final.

Together with her teammate Pieter van den Hoogenband, 27-year-old de Bruijn of the Netherlands was the sensation of the Sydney Games, and after three gold medals and three world records, it's no exaggeration to say she's in a league of her own. People are still wondering how she did it, how she does it, and what will happen now.

Her progression over the last two years was startling enough. Eight world records between May and September had many experts shaking their heads—such improvement at a relatively late age recalled a certain phenom from Ireland who'd bagged triple gold in Atlanta, then turned out to be a fraud. But then again, with more women winning Olympic medals later and later in life (kayaker Birgit Fischer (GER, 38), long jumper Heike Drechsler (GER, 36) and swimmer Dara Torres (USA, 33), being just a few), the age argument is becoming obsolete.

So what's behind it? The perfect training plan, perfect talent, perfect timing?

It all came together for Inge de Bruijn when she met Paul Bergen, one-time coach of US great Tracy Caulkins and Canadian breaststroker Allison Higson, in the fall of 1997. She alternates training with him in Beaverton, Oregon, and training with the top Dutch squad at PSV Eindhoven under the tutelage of Jacco Verhaeren, who is also de Bruijn's boyfriend of two years.

Bergen said when he met de Bruijn she was "a very good swimmer, 1:01 for 100 m fly, 0:56 for 100 m free—thin but not very strong, good technique, and a great kicker." He put her on a dryland training program that included weights, cycling, running, medicine ball, sit-ups, push-ups, rock climbing, and rope climbing. De Bruijn also says she often swims with weight belts and shoes for extra drag.

De Bruijn said, "These are the sort of things that I'd never done before and they really helped me better my body and give me extra strength." The funny thing is, though, but for the rope and rock climbing, there's nothing really new in that regime.

Add to that a high protein diet and some scoops of creatine—we've heard that before too. The "hard

work" line? Well, who doesn't work hard at that level?

De Bruijn took her first Olympic honours in the 100 freestyle with 53.77—a far cry from her 55.24 for a silver at the European Championships in Istanbul in 1999. Her 56.61 100 fly was to be expected, but when she clocked 24.13 in the 50 freestyle, she moved the event a degree closer to the men's competition than any other woman's event has come for the past 20 years.

Bergen, who's been described as "ruthless," puts her success down to great fitness levels, excellent stroke technique, exceptional work ethic, and dedication. Given that de Bruijn was kicked off the Dutch team in 1996 for lack of dedication and commitment, he obviously found a new way to bring it out of her. But maybe that's where being a little older helps.

De Bruijn said in Sydney, "I think my really big advantage is that I've been working on my second 50. I remember three years ago I would go out really hard in the first 50 and then I would be totally dead. It is really about the last few metres, and I really focus on that and especially try to bring it back home. The most important thing for me is not to die at the end, at least try not to die as much as the others, to hold my stroke and kick fast."

So the question is, now that the secret's out, how many coaches are going to have their swimmers start climbing ropes?

Canadian swimming has always been great for picking up on "trends" gleaned from other countries' programs. East Germany, for instance. Altitude training was one of the first things to be adopted—thousands of dollars were spent on that trend. Lactate testing, national training centres, the list goes on. All things done "on the East German model," with the best of intentions, but minus the know-how. Which explains perhaps why the Canadian program has never benefitted from any of them. Alas.

Inge de Bruijn may just be the harbinger of a new era in women's swimming. She said, "I think a big thing that changed women's swimming was when Jenny Thompson broke Mary T's 100 fly world record. I think it really opened doors for women's swimming. She did that and I thought 'if she can do it I can at least try.'"

To all the others out there: you can always try. And the work is no tougher than it ever was. It's getting the recipe right that is.

Three golds, three world records for Sydney Olympic Queen Inge de Bruijn

BACKWASH

Backwash features short clips, gossip, letters, and opinions. Contributions are welcome at our e-mail: swimnews@inforamp.net. Now for the rumours behind the news.

Stuck in the rut: We have a big problem in Canada and before we can fix it, consider the following:

If parents complain, their athletes suffer.

If athletes complain, they are stripped of their carding (they have signed a form to that effect).

If coaches complain, they will never be on deck at international events with their swimmers.

It will take a brave soul to get us out of this rut.

Media growth: Broadcast (TV and radio) had 11,000 accreditations at the 1996 Atlanta Games; in Sydney, their numbers increased to 15,327, while the number of photographers and journalists remained steady at 6,000. That's two media for each athlete. NBC television had over 2,000 in Sydney. CBC had 380 persons for the 315 Canadian athletes in Sydney. At the swimming pool, more than two-thirds of the available media seating were reserved for broadcast (TV and radio) companies who pay for the space. Written media had fixed positions (free) for only the largest circulation papers. Others had to obtain daily tickets from their national Olympic committees. Since space is becoming so limited at high-interest venues (swimming), surely charging all media for access can't be far away.

Saving the Games: *Sports Illustrated*, in its October 9th issue, calls for increased effort to save the Games in an article by Gary Smith, "Wonder Down Under." Highlights from this article: The Olympics are the world's party and any country or federation that cares to come must play by the same harsh set of rules. The new law suggested for every athlete: One positive drug test and you're gone. No more Olympics, ever. One positive, and any world record you ever set goes poof from the books. One positive, and any Olympic medal you ever won vanishes too, with a new one bestowed on the athlete you cheated. Bestowed in front of the world, with the anthem playing and the flag rising, even if it's at the next Olympics. Not tucked away where nearly no one sees it, as the IOC thoughtlessly did in Sydney when it stripped gold from the drugged Bulgarian and quietly slipped it to American weightlifter Tara Nott. Increase funding to the World Anti-Doping Agency (WADA), making it the independent guardian angel of the Games, a drug-detecting body that tests out of competition, all over the world, all year around, and adjudicates the appeals process in no more than five weeks. Let's do it. Let's celebrate each positive drug test as a victory, rather than a defeat.

The following was reported during the Olympics in the *Truth & Rumours* column by William Houston in the *The Globe and Mail*.

CBC swim analyst Byron MacDonald, assessing

Canada's poor performance, called for better leadership. "And if not, blow up the organization and start all over."

Alex Baumann, a Canadian double gold medallist at the 1984 Olympics in world record times for the 200 and 400 individual medley, and now CEO of Queensland Swimming, commented on CBC television: "Even when you perform well, you have to critically analyze. Canada has been guilty of resting on its Olympic laurels" (such as they are). He also added:

- Money alone will not fix the problem. "It's also about attitude, pride, and competitiveness."

- Canadian athletes and sport leaders are kidding themselves if they think personal bests are sufficient achievements. "Personal bests are great, but if you want to be in the competition, national teams are going to be judged on medals and top-eight finishes. If you get off that tack there's a bit of a problem. We end up satisfied with any results we get."

- The Canadian carding of athletes and funding of that system "is out of date."

- Success is achieved through a sound structure, hiring top international coaches, and the establishment of programs such as a national youth program.

- The Canadian system has stagnated, evidence of which is the country relying on veteran swimmers such as Joanne Malar, Curtis Myden, and Marianne Limpert, at their third Olympics. "I don't see a lot of young talent coming through."

- "Success breeds success. And success breeds popularity."

Don't expect anything soon: CBC host Ron MacLean tried to engage Heritage Minister Sheila Copps in a meaningful conversation about the poor Canadian performance but failed. It is not surprising as Ms Copps thinks:

- One important way to help to improve the athletes' performances is for CBC broadcasters to cheerlead in a "team effort."

- Canadians need to accentuate the positive, noting that swimmer Joanne Malar (coincidentally from Copps's home town of Hamilton) set a personal best in the 200 IM (but failed to mention that Malar had been a major disappointment at two consecutive Olympics).

- Copps said the best way to improve funding for Canadian athletes is for Toronto to be awarded the 2008 Summer Games. That would motivate Canadians to increase the support for athletes.

It was of course, a ridiculous statement. But it illustrates how out of touch Copps is on the issue.

Now they tell us: Mark Lowry of the Canadian Olympic Association—"We don't have a system. We don't have a plan. We don't even have a target to where we want to go to. Basically, if you're going to throw money at something, you've got to throw the money in such a way that's focused, strategic, and deployed in a proper way. Right now, we just spend money and we hope we're going to do well."

Hushed up: Just two weeks after the Olympic flame

had been snuffed out, Italy's gold medallists provided the next scandal. An Italian newspaper reported that special testing conducted by the Italian Olympic Committee (CONI) on 568 athletes prior to the Games had revealed an abnormally high level of human growth hormone in 61 athletes. Included in that group were five Olympic gold medallists from Sydney: swimmer Massimiliano Rosolino (200 IM), fencer Giovanna Trillini, rower Agostino Abbagnale, kayaker Josefa Idem, and cyclist Antonella Bellutti. Apparently the CONI has developed a test for human growth hormone—which is so far undetectable with standard urine tests—that they use extensively but that is still not validated by the IOC. The IOC, therefore, did not react to the report during the Olympics, but Italian authorities have opened an investigation into the affair. The *Corriere della Sera*, which obviously had insider information, even printed the levels of hGH of the gold medallists in question. Although a normal level for a man is 0.2 nanograms per millilitre of blood and 1 nanogram for a woman, Rosolino had a level of 17. Idem came in at 34, Abbagnale and Trillini at 13.6, and Bellutti at 10.6. Reactions from the athletes were virulent denials, and Rosolino said he would not hesitate to defend his athletic image in court. The CONI itself trashed the revelations as "irresponsible" because they were based on results that were not final, or officially acceptable. Sandro Donati, head of CONI's Scientific Commission which conducted the testing, told *L'Equipe* that he'd been seeing abnormal hGH levels from Italian athletes since last spring. He also said it was clear to him quite early on that the results would be hushed up and ignored by Italian sport officials including the federations and the Ministry of Sport. "I don't believe in elite sport anymore," he was quoted. "The obsession with the result and the desire to obtain the social status of a star mean that young athletes are prepared to do anything. The federations need the results to get sponsors and television rights and the media is often compromised because event organizers and governments want to keep their medal standings." And while the athletes prepare to defend themselves in court, Donati may be rewarded for his anti-doping efforts by being shown the door.

Continues to deny: The most successful East German swimmer in history, the legendary Kristin Otto, was finally caught in the web of doping investigations, which have been going on in Germany since 1996. Just prior to the Olympic Games in Sydney, and just prior to the statute of limitations for East German doping crimes of October 2, 2000, a county court in Leipzig confirmed that Otto's name appeared on a list of nine doped swimmers who had trained under former East German coach Stefan Hetzer. Already in April the court had found Hetzer guilty of bodily harm through the administration of doping substances and fined him 15,000 marks (about \$6,500 US). Hetzer, who now works as a swim coach for the German Triathlon Union, admitted to doping his swimmers, which leaves Otto little smoke behind which to hide. Her name was also mentioned in the admission of former East German doctor Horst Tausch,

who was given a 10-month suspended prison sentence. He said he looked after the doping program of Kristin Otto and 21 other swimmers between 1985 and 1989. The 34-year-old Otto, now a sports journalist and anchor at Germany's ZDF public television station, continues to deny that she knew anything was going on. Despite uncovered documents or witness testimonies by her former teammates to the contrary, the six-time world champion from 1986 and six-time gold medallist at the 1988 Seoul Olympics maintains that she never knowingly took any doping substance. One of the documents in question is an official GDR "travel control" protocol listing East German swimmers who underwent routine drug testing before the European championships in Bonn in 1989. Otto was one of four to be noted with an illegal level of male hormones. That didn't stop her or her teammates from going to the meet and cleaning up. Otto was in Sydney as a ZDF commentator for the swimming events.

Oh dear: Franziska van Almsick, 22, former East German and Germany's not-so-golden girl in Sydney, explained to a German newspaper why she still lacks an Olympic gold medal: because there's no more GDR. "In the GDR we were raised together, we had to eat as a team and leave the pool as a team," she said. "Today everyone just does their own thing. I'd probably have won an Olympic gold a long time ago, because in the GDR I wouldn't have had to deal with the pressure of public life." (NOTE: Franziska van Almsick is world record holder in the 200 freestyle (1994) and the richest swimmer in the world, with an estimated 17 million marks in assets.)

Editor: The Olympic swimming has just ended and I'm suffering again from an overwhelming case of déjà vu. And I ask myself how long the talented athletes that we have in our sport in Canada are expected to stand up filled with great expectations only to land flat on their competitive backsides. Are they truly no better than that? Or is the problem elsewhere?

As a long-time outsider and naysayer of the official national program, including the development of training centres and coaches' certification, I pose the question: Where does the buck finally stop?

At one point in our history as a sport, we were presented with the dream of making ourselves the foremost swimming nation in the world. A bit unrealistic at the time, but it was the official party line. Since then, virtually the same people, more-or-less, have been leading our national program to our present glorious state of a single-medal performance. In almost every area of activity (the real world), the CEO who fails to deliver is given his golden handshake and sent on his way. Unfortunately, that is not the Canadian way for Olympic sport; flogging a dead horse is more like it and expecting it to win.

I am distraught at the thought that our kids have been sold a bill-of-goods. They have been promised the world by the head coach and SNC's educational program and by many well-meaning Canadian

coaches, only to have their dreams shattered on the rocks of reality.

Our program and those who deliver it are the bottom line. Experienced leaders and proven international coaches have been turned away from the sport. We couldn't or wouldn't afford to bring Paul Bergen back. Non-Canadians have been appointed to the centres, and Don Talbot was fired 12 years ago.

These are the fruits of the decisions made by our leadership during the past decade. My heart breaks for our athletes. They deserve better.

The Olympics are not, regardless of what we might be told, a development opportunity. They are IT!

It's time for a change, or two, or more.

I'm writing from Iceland, where my tears have frozen on my cheeks.

*Paul Meronen
Kellavik, Iceland*

Meronen coached 1984 Olympic Champion Anne Ottenbrite, 1988 Olympic relay medallist Lori Melien, and coached 2000 Olympic team member Garret Pulle until 1998.

He moved to Iceland last summer and reports that he hasn't quite left the field yet, only changed the field of combat.

"I am in the wild frontier of coaching and competition," he wrote. "Limited pool space and time, outdoor training year-round and poorly coached (taught) athletes and parents. But the levels of desire are high. It's just a matter of directing energies appropriately. And we have already wrought minor miracles here. And the monies and perks are great; much better than one could expect anywhere in Canada.

The challenge of a new language at this point in my life is presenting me with a new source of inspiration."

Editor: Having been away from the action for 10 years, it is presumptuous of me to even think of taking part in what has to be a heated debate. But here goes. By the way, heartiest congratulations on induction into the Hall of Fame. You deserve it.

Over the years, I've been cheering on Canada's swimmers as much as anybody. And I won't stop now. But it disturbs me that underfunding is being blamed as the number-one culprit for our failure to live up to expectations in the Olympic pool. Sounds like just another excuse. I might add that, should this view gain credence, it could well be the death sentence to any thought of Canada rejoining the top rank of swimming nations anytime soon.

Don't get me wrong. More funding has to be given a high priority—say number two or number three—but not priority number one.

I have yet to hear a strong and responsible voice, other than Alex Baumann's, pointing a finger at our national program. To paraphrase an old song "Oh Alec, won't you please come home."

There is constant comparison to Australia's sports funding, overlooking the fact that there are a dozen or more nations, excluding Australia, the USA, and

China, with a better medal tally. Some of those medals, I am certain, have been won on the basis of raw talent, backed up with dedication and determination, but with a pittance of funding. Why, swimming was even outmedalled by what were, until now, low-profile Canadian sports.

Our heroes and heroines, namely our swim team, whose guts and determination got them oh-so-close to the medal podium, did everything that could reasonably be expected of them. And more.

It is tempting to speculate how many precious tenths of seconds massive national pride and support would have shaved from their times. Two weeks of interest every four years, the small swimming community excepted, is not enough. But that's Canada.

Let's face reality. Canada is not now and never will be as sports mad as Australia, an alma-mater-supported USA, or a communist China. If we are to do what our swimming community fuels us to do, we have to do it on our own—with a program that is the envy of the world. Methinks there is a lot of work to do.

*Bernard McGrath
Gibsons, BC*

Some good news:

Editor: I am writing to congratulate you on your induction into the International Swimming Hall of Fame in Fort Lauderdale. Your contribution to swimming in Canada and beyond is immense. Ever since the first publication of SWIM, I have benefited from the statistical information and articles, and, more recently, from your generosity in continuing to send me the magazine, which has followed me and finds my mailbox.

*Nancy Garapick
Kitimat, BC*

Note: Nancy Garapick won two backstroke bronze medals at the 1976 Olympics. In 1975, as a 13-year-old, she bettered the 200 backstroke world record.

Editor: As always it takes me forever to do anything. I did, however, want to congratulate you on your induction into the International Swimming Hall of Fame. It's about time someone took notice of all you have done and accomplished in the name of the sport. It's nice to see that someone's compassion and love for swimming has been noticed in such a way.

I have not forgotten all that you did for me.

*Judy MacKay
Toronto*

Note: Judy MacKay (formerly Garay) won the 1977 Canadian 100 breaststroke championships and competed at the 1978 Commonwealth Games. She's busy raising two daughters and a son and coaches a private school swim team.

*Remember ... It's not true until it has been
officially denied*

THIS IS SIMPLY NOT GOOD ENOUGH

Nick J. Thierry

The following are a small tip of the iceberg of problems experienced by the swimmers and their parents at the Sydney Olympics.

- How many countries prepared their team with a trials in May, another one in August (after disappointing May results), two mandatory competitions in July, several mini training camps, followed by a three-week camp in Cairns in northern Queensland with 73 persons in attendance? Could it be that at the end some swimmers might be tired?

- Olympic racing gear arrived barely in time for the competition. There was little or no time for practice. Swimmers had to spend their free time whitening out the sponsor logo on their caps because it exceeded FINA regulations as to maximum allowable size.

- Karine Legault swam the 400 and 800 freestyle. Her personal coach, Benoit Lebrun, left Sydney prior to the start of the competition as he couldn't access the venue and help Karine prepare in the final days. He did spend time with her in Cairns at the staging camp.

Although Karine was promised that the head coach would look after her for her first event, the 400 free, and then she would be looked after by Jan Bidrman for the 800 free, reality was somewhat different. She warmed up alone for the 400 free, nobody took her splits, and then she swam the 800 free under similar conditions.

After her 800 swim, she called her personal coach and indicated her unhappiness with her final preparation prior to her races and lack of availability of the coaches.

- Relays: What a joke. So many were selected, so few got to swim (2 of 12). Time trials were held where swimmers didn't know that relay personnel had already been decided.

- In the men's 50 free, the wrong swimmer was entered. Yannick Lupien won the Olympic Trial (22.95) but somehow Craig Hutchison was entered, who was second at Trials. Yannick Lupien's parents, unaware of any of this, had expensive tickets for the 50 free prelims to watch their son in the Olympics.

- Some swimmers had to move from their assigned rooms to accommodate an unhappy coach.

- Swimming/Natation Canada (SNC) provided no information on how parents could meet with their swimmers. This was eventually resolved, with no help from SNC.

- SNC decided not to buy swimming tickets and sell them to parents with swimmers on the team.

LUPIEN GETS AN ANSWER

After 12 years of training, Yannick Lupien thought he had done everything necessary to get on the Olympic team and swim his two favoured events in Sydney, the 50 m and 100 m freestyle.

He found himself in for quite a surprise. It seems that Lupien's name had been left off the team's official entry for the 50 m freestyle event. Lupien was informed of the problem by his personal coach, Michel Berube, who was an assistant coach with the Canadian team in Sydney.

Lupien never really knew the course of events that transpired to lead to his name being omitted from the event. A week after being back in Canada, after the issue had been taken up by local and national newspapers, Lupien received a phone call from Head Coach Dave Johnson, who told him that the oversight was his and that the entries took place at the same time the Canadian Swimming Association was moving its offices.

In mid-October, Yannick received an email outlining the course of events that led to his name being left off the entry list. "Johnson had simply forgotten to enter my name, that's all I was told. No one ever told me how this could happen.

"No one is explaining to me how my 12 years of work is gone because he forgot to enter my name."

On October 24, Yannick received a personal handwritten letter from coach Johnson offering an apology to Yannick's parents and offering to compensate them for the price of the competition tickets in Sydney (\$600.00), but still no apology for him.

"They should have sent it directly to my parents, not to me. It's a letter to my parents. There's no apology in this letter for me. I didn't get any 'I'm sorry.'

"Dave Johnson doesn't lose anything and I lost swimming in the 50 free.

"I just want to make people aware of this situation. It's frustrating for me."

Parents from other countries were astounded at the lack of support SNC gave Canadian parents, who didn't want anything for free, just some assistance.

Parents from other countries had seats together

and were able to cheer for their country.

One pair of Canadian parents managed to bid up the face value of tickets and double their price against another Canadian couple. One family spent \$4,500 for four prelim and four final tickets. Of the 39 swimmers on the Canadian team, 18 had their parents and relatives in Sydney (over 50 in total), all scrambling to get in to watch their kids.

- Assistance from SNC with accommodation and travel got nowhere. The COA was equally "helpful" and Carlson Wagonlit, the official travel agent, was arrogant, unhelpful, and totally incompetent (unless you bought their total travel package).

For many parents, 10 years of driving to workouts at 4:30 am, over \$50,000 in swimming-related expenses, 1000s of hours officiating, and club involvement on every matter, appeared to be insufficient commitment for SNC to take any interest in them.

There is more, but without anyone in the know willing to tell all, it will have to wait.

On October 21, *The Toronto Sun* reported that a three-member committee will make recommendations on how to improve the Canadian swim team's performance. Firing the head coach isn't expected, according to SNC president Bill McFarlane, who said, "it's inappropriate" to suggest replacing Dave Johnson would improve Canada's medal count by the next Games. McFarlane will chair the committee.

"Throwing the baby out with the bath water isn't going to get us where we need to go," McFarlane said. "We're not happy with the medal count; we're in the business to win medals. We had closed the gap over the past few years but the gap increased on us. We're further behind."

Years ago, no kidding, there was a call for a "gap manager."

Swimming/Canada Natation (SNC) Chief Executive Harold Cliff had his position terminated, announced Bill McFarlane, SNC President on November 1 in Ottawa.

Mr. Cliff joined SNC in the mid-1980s as Marketing Director, after working as a Sports Consultant with Sport Canada. He became CEO in 1993.

There are no plans to appoint a successor. For the immediate future members of the SNC Executive Committee and senior staff will oversee the affairs of the association.

Cliff was supposed to raise substantial marketing revenue, to be used mostly in the technical budget.

Registration dues increase of almost 25% is one result. (In Ontario swimmers are paying \$81 each this season, \$50 to SNC and \$31 to Swim Ontario. The figures last year were \$65 total, \$36 to SNC and \$29 to Swim Ontario.)
